Brief Review Gordon Korman,2004

Teaching History with Big Ideas S. G. Grant,Jill M. Gradwell,2010-07-16 In the case studies that make up the bulk of this book middle and high school history teachers describe the decisions and plans and the problems and possibilities they encountered as they ratcheted up their instruction through the use of big ideas Framing a teaching unit around a question such as Why don t we know anything about Africa offers both teacher and students opportunities to explore historical actors ideas and events in ways both rich and engaging Such an approach exemplifies the construct of ambitious teaching whereby teachers demonstrate their ability to marry their deep knowledge of subject matter students and the school context in ways that fundamentally challenge the claim that history is boring

Portuguese, Dutch and Chinese in Maritime Asia, c.1585 - 1800 George Bryan Souza,2024-10-28 This collection of 13 essays deals with a range of topics concerning Portuguese Dutch and Chinese merchants commodities and commerce in maritime Asia in the early modern period from c 1585 1800 They are based on exhaustive research and careful analysis of diverse sets of archival materials found around the globe Written by a leading authority on global maritime economic history and the history of European Expansion each individual essay addresses a topic of fundamental importance to those interested in knowing more about

what merchants did with which resources and under what conditions and how they did it what were the commodities that were incorporated into local regional intra regional and global economies and what was the role and function of early modern maritime trade and commerce in economic development in general and especially in Asia in the early modern era from c 1585 1800 A number of them in particular relate the individual or collective merchant experience to specific European Portuguese and Dutch imperial projects and their contestation amongst themselves and their indigenous neighbours over portions of the period Collectively they form an exposition of a utilitarian view of human activity under a wide ranging different set of circumstances and conditions but with similar patterns of behaviors and responses that are largely independent from ethnic racial or religious stereotyping The work therefore should raise new issues and avenues of research concerning these agents and objects in European Expansion Asian and Global History *Brief Review United States History and Government* Bonnie-Anne Briggs, 2007 Gives helpful test taking strategies document based question essay writing practice new current events foreign policy and election information and six actual New York Regents examinations

German and United States Colonialism in a Connected World Janne Lahti,2021-01-28 This book contributes to global history by examining the connected histories of German and United States colonial empires from the early nineteenth century to the Nazi era It looks at multiple and multidirectional flows transfers and circulations of ideas people and practices as Germany and the US were embedded in and created by an interconnected world of empires This relationship was not exceptional but emblematic of the diverse entanglements that created colonial globality Colonial entanglements between Germany and the United States took on many forms but these shared and intersecting histories have been underanalyzed Traditionally Germany and the United States have been understood to have taken respectively an authoritarian and liberal path into modernity But there is no neat dichotomy as the contributors to this book illustrate There are many more similarities than have previously been appreciated and they are the result of multilayered entanglements made visible via conquest settler societies racialization and rule of difference Building on present historiographies of empires colonialism and

globalization this book introduces new analytical possibilities for examining these two relatively understudied empires alongside each other as well as at their intersections Chapter 1 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com
