Theology of the Sacraments P. Pourrat, Rev P Pourrat Vg, 2014-10-17 Liberal Protestantism triumphantly affirms in the name of history that the Catholic dogmas concerning the Sacraments are purely human doctrines and even that these Christian rites were borrowed from Paganism Other errors have also been put forth of late in regard to the relation of history to sacramental theology Called upon by his functions to submit those biased and exaggerated doctrines to a critical examination the author has carefully studied the facts with the aid of a rigorously scientific method The result of this impartial examination has been to show that an exclusively Christian inspiration presided over the origin of our dogmas regarding the Sacraments and over the origin of those Sacraments themselves and that between the scriptural and patristic data in this matter and the sacramental definitions of the Council of Trent there exists a conformity sufficient to satisfy any reasonable mind Very competent persons whose authority has special weight with the writer thought that this work which had been useful to many might be useful to others too For this reason is the present volume published This study of positive sacramental theology is based on the traditional conception of the development of dogma that which St Vincent of Lerins outlined in the fifth century which Newman has set forth so powerfully in modern times and which the Vatican Council has made its own *Sacrorum dogmatum is sensus perpetuo est retinendus quem semel declaravit Sancta Mater Ecclesia nee unquam ab eo sensu altioris intelligentie specie et nomine recedendum Crescat igitur et multum vehementerque proficiat tam unius hominis quam totius Ecclesie Getatum et saeculorum gradibus intelligentia scientia sapientia sed in suo duntaxat genere in eodem scilicet dogmate eodem sensu eademque sententia* This doctrine of the development of dogma finds indeed in sacramental theology a particularly striking application For the historical development of the Catholic dogma coincides fairly well with its logical development

Theology of the Sacraments Pierre Pourrat (P.S.S.), 1930 **Theology of the Sacraments** Pierre Pourrat (s.s.), 1924 **Deconstructing Sacramental Theology and Reconstructing Catholic Ritual** Joseph Martos, 2015-05-12 Catholic sacramental doctrine has lost much of its credibility Baptized people leave the church adolescents stop attending shortly after they are confirmed supposedly indissoluble marriages regularly dissolve few go to confession and many do not believe in transubstantiation Drawing upon his decades long study of the sacraments Martos reveals how teachings that seemed rooted in the scriptures and Catholic life have become unmoored from the contexts in which they arose and why seemingly eternal truths are actually historically relative After carefully constructing Catholic teaching from the church's own documents he deconstructs it by demonstrating

how biblical passages were misconstrued by patristic authors and how patristic writings were misunderstood by medieval scholastics The long process of misinterpretation culminated in the dogmatic pronouncements of the Council of Trent which continues to dominate Catholic thinking about the church's religious ceremonies If the sacraments are released from their dogmatic baggage Martos believes that the spiritual realities they symbolize can be celebrated in any human culture without being tied to their traditional rites

Reynolds, 2016-06-30 An indispensable guide to how marriage acquired the status of a sacrament This book analyzes in detail how medieval theologians explained the place of matrimony in the church and her law and how the bitter debates of the sixteenth century elevated the doctrine to a dogma of the Catholic faith

Richard Hooker and Reformed Orthodoxy W. Bradford Littlejohn, Scott N. Kindred-Barnes, 2017-03-13 For more than forty years now there has been a steady stream of interest in Richard Hooker This renaissance in Hooker Studies began with the publication of the Folger Library Edition of the Works of Richard Hooker With this renaissance has come a growing recognition that it is anachronistic to classify Hooker simply as an Anglican thinker but as yet no generally agreed upon alternative label or context for his thought has replaced this older conception in particular the question of Hooker's Reformed identity remains hotly contested Given the relatively limited engagement of Hooker scholarship with other branches of Reformation and early modern scholarship to date there is a growing recognition that Hooker must be evaluated not only against the context of English puritanism and conformism but also in light of his broad international Reformed context At the same time it has become clear that if this is so scholars of continental Reformed orthodoxy must take stock of Hooker's work as one of the landmark theological achievements of the era This volume aims to facilitate this long needed conversation bringing together a wide range of scholars to consider Richard Hooker's theology within the full context of late 16th and early 17th century Reformed orthodoxy both in England and on the Continent The essays seek to bring Hooker into conversation not merely with contemporaries familiar to Hooker scholarship such as William Perkins but also with such contemporaries as Jerome Zanchi and Franciscus Junius predecessors such as Heinrich Bullinger and successors such as John Davenant John Owen and Hugo Grotius In considering how these successors of Hooker identified themselves in relation to his theology these essays will also shed light on how Hooker was perceived within 17th century Reformed circles The theological topics touched on in the course of these essays include such central issues as the doctrine of Scripture predestination Christology soteriology the

sacraments and law It is hoped that these essays will continue to stimulate further research on these important questions among a wide community of scholars

Studies in Sacred Theology, 1963 *Inter timorem et spem: A Study of the Theological Thought of Gerard Zerbolto of Zutphen (1367-1398)* G.H. Gerrits, 2021-10-25 *Models of the Eucharist, Second Edition* Irwin, Kevin W., 2020 In this book updated with the texts of the third edition of the Roman Missal Kevin Irwin reflects on the jewel in the crown of Catholicism the celebration of the Eucharist His book theological pastoral and contemporary is essentially concerned with issues about the Eucharist that face us today decades after the truly historic and unprecedented revisions that took after the Second Vatican Council Some of these concerns are the result of unforeseen developments about the Eucharist resulting from other factors for example the decline in numbers of clergy which has led in some places to Sunday celebrations without the Mass Other concerns arise from a lack of proper catechesis about the Mass and a keen desire to understand why and how the Eucharist is at the center of Catholic life In addition to being expressly theological this book is also expressly pastoral in that it is a reflection on the life lived by the church as it enacts the Eucharist and seeks to live out what the Eucharist celebrates The book is aimed at the audience of educated Catholics who seek a deeper appreciation of what the Eucharist is and who want to appropriate that understanding in the way they live their lives This book will be of particular interest to pastoral ministers both those present and those in training and the communities of faith whom they serve

The Cleansing of the Heart Reginald M. Lynch, 2017 Recalling the Biblical and Patristic roots of the Church's sacramental identity the Second Vatican Council calls the Church the visible sacrament of that unity offered through Christ LG 9 Sacrament in this sense not only describes who the Church is but what she does In this

regard the Council Fathers were careful to establish a strong connection between the symbolic nature of the Church's sacraments and their effect on those who received them. Reginald Lynch is concerned with the cleansing of the heart, a phrase borrowed from St Augustine and employed by Aquinas which describes the effects that natural elements such as water or bread have on the human person when taken up by the Church as sacramental signs. Aquinas' approach to sacramental efficacy is unique for its integration of diverse theological topics such as Christology, merit, grace, creation and instrumentality. While all of these topics will be considered to some extent, the primary focus of *The Cleansing of the Heart* is the sacraments understood as instrumental causes of grace. This volume provides the historical context for understanding the development of sacramental causality as a theological topic in the scholastic period, emphasizing the unique features of Aquinas' response to this question. Following this, relevant texts from Aquinas' early and later work are examined, noting Aquinas' development and integration of the idea of sacramental causality in his later work. *The Cleansing of the Heart* concludes by contrasting alternatives to Aquinas' theory of sacramental causality that subsequently emerged. The rise of humanism introduced many changes within rhetoric and philosophy of language that had a profound effect on some theologians during the Modern period. This book provides historical context for understanding the most prominent of these theories in contrast to Aquinas and examines some of their theological implications.
