Events and facts included are not significant in the person's life; Does not feature major Contributions; Information is presented in mundane manner with poor word choice.
<b>Offers insights into the person's character traits and feelings using specific details</b>	Paints a vivid portrait using anecdotes and quotes to <i>show</i> traits and feelings.	Accurately depicts the person by including details, but <i>tells</i> more than <i>shows</i> traits and feelings.	Does not seem to understand attributes that contributed to person's success; Information is too general with few specific details.
<b>Organizes information well using chronological sequence</b>	There is a good order to the information; Evidence of paragraphs and topic sentences; Attention-getting introduction and a memorable conclusion.	Information is generally organized in a logical manner, though paragraphs could be structured more clearly with topic sentences; Includes introduction and conclusion, though they may not be memorable.	Information appears disjointed with no particular order and little evidence of paragraphs; No real introduction or conclusion.
<b>Demonstrates attention to writing conventions and sentence structure</b>	Few or no errors in spelling, usage, and punctuation; writing flows well with good sentence structure and sentences that begin in different ways and are different lengths. Many errors in spelling, usage, and punctuation distract from the content of the biography; Often leaves words out of sentences, writes run-ons or fragments; no sentence variety.

Getting to the Common Core Sharon L. Spencer, Sandra Vavra, 2015-01-01 The Common Core Standards have recently been adopted in most states across the nation and teachers are in the process of getting to the core of these standards Teaching to standards is not a new concept teachers have adapted to new standards every few years for quite some time And teachers are adaptable as can be seen in this book We are writing this book to demonstrate how teachers use research based strategies to meet Common Core Standards while still focusing on students Our goal is to help teachers visualize students in action as other teachers describe the implementation of research based strategies in their own classrooms show student work samples and provide reflections of student success in achieving the standards Many Common Core Standards books focus on the standards but our approach focuses on strategies that engage the students in the classroom showing how different teachers at varying grade levels have used the strategies to meet the standards With this focus we believe that teachers gain a new and positive perspective on approaching the new standards and see the flexibility of strategies for meeting standards across subject areas We have examined research on the strategies with the purpose of giving teachers a brief description of why these strategies work before giving actual examples from classrooms We also work closely with teachers in the public schools and have our finger on the pulse of what is happening in the public schools one of the current stressors being unpacking the Common Core Standards This book actually focuses on practice We begin by laying out a rationale in our first chapter The Core Values of Education Then each chapter focuses on a strategy including 1 a brief description about the research supporting each strategy and 2 several examples from different grade levels which include a description of how the strategy was used student work samples and a reflection on the use of the strategy The research descriptions are fairly short because while we believe professional educators aka teachers in this case should know the

research that supports practice we know they are not typically interested in long diatribes about the research
