**Marriages** Benjamin R. Karney, 2007 Policymakers are interested in promoting healthy marriages in adulthood by providing services to strengthen the adolescent precursors of healthy marriage especially within low income populations But if programs and curricula targeting adolescent romantic relationships are to be effective they must be grounded in an accurate understanding of how adolescent relationships function and the role that they play in the development of healthy adult marriages This report evaluates the current landscape of theory research and interventions addressing the role of adolescent romantic relationships in the development of healthy adult marriages Drawing on a thorough review of the existing theoretical and empirical literature in this area as well as interviews with practitioners directly involved with developing or administering relationship education to adolescents the authors bring together relevant research and theory from a wide range of disciplines that have examined these issues and suggest future directions for research and intervention In particular they note that although research describing romantic relationships in low income populations is sparse there are already existing nationally representative data sets that include data from substantial numbers of well sampled low income adolescents Analyses of these data would have relatively low cost and a potentially high yield for informing policies that target low income youth **Universities, Sustainability and Society: Supporting the Implementation of the**

**Sustainable Development Goals** Walter Leal Filho, Amanda Lange Salvia, Luciana Brandli, Ulisses M. Azeiteiro, Rudi Pretorius, 2021-05-03 In order to yield the expected benefits sustainability initiatives need to be undertaken by means of a close cooperation between universities on the one hand and societal partners on the others The principle of co creation and co execution of sustainability initiatives increases the value for all by mutual learning and the sharing of expertise and resources But pursuing sustainability initiatives with a community and societal involvement is not simple There is a perceived need for a better understanding of how universities can interact with society in order to support the implementation of the UN Sustainable Development Goals This book is an attempt to address this need by a novel approach which focuses on current potentials and challenges across a wide range of fields and expertise The book focuses on how the theory and practice of sustainable development interact and shows the need for a continuation of the dialogue among sustainability academics and practitioners so as to address the issues matters and problems at hand The spectrum of themes addressed on

this book also entails how environmental values and ethics are applied and the relationship between social biological and cultural diversity It also includes a broad disciplinary approach to sustainability including education research and case studies and the links with human environment relations in a sustainable development context **Bulletin of the Atomic**
