**Savage Grace** Jay Griffiths, 2015-03-17 Jay Griffiths is a tour guide for anyone who has ever wished to commune with the side of our human psyche that remains in touch with the wild Equally at home among the sea gypsy Bajo people who live off the coast of Thailand and forage their food from the ocean floor drinking the psychedelic ayahuasca plant with Amazonian shamans or joining an Inuit whale hunt at the northern tip of Canada Griffiths takes readers on an adventure both charted and unchartable She divides her meditations on these travels into sections named after the ancient elemental properties of the universe Earth Air Fire Ice and Water because her subject matter is not merely the places traveled to but the depths of mind and the cultural narratives revealed by place It is a universal story told of far flung groups of humans with vastly different ways of life connected through the varied wilderness that sustains them By describing the ways in which human societies and the human mind have developed in response to the wilder elements of our homelands *Savage Grace* reveals itself as a benediction for the emotional intellectual and physical nourishment that people continue to draw from the natural world Under the sway of Griffiths's charisma her poetic prose and her deeply learned and persuasive case for the wild roots of our shared human being we learn that we are all each and every one of us a force of nature

This first full length study of modern British nature writing is timely and invaluable for literary scholarship in the environmental crisis **Virginia Woolf and the Natural World** Kristin Czarnecki,Carrie Rohman,2011-06-01 Edited collection from acclaimed contemporary Woolf scholars exploring Virginia Woolf s complex engagement with the natural world an engagement that was as political as it was aesthetic Thinking Continental Tom Lynch,Susan Naramore Maher,Drucilla Wall,O. Alan Weltzien,2017-11-01 In response to the growing scale and complexity of environmental threats this volume collects articles essays personal narratives and poems by more than forty authors in conversation about thinking continental connecting local and personal landscapes to universal systems and processes to articulate the concept of a global or planetary citizenship Reckoning with the larger matrix of biome region continent hemisphere ocean and planet has become necessary as environmental challenges require the insights not only of scientists but also of poets humanists and social scientists Thinking Continental braids together abstract approaches with strands of more personal narrative and poetry showing how our imaginations can encompass the planetary while also being true to our own concrete life experiences in the here and now A Little Nostalgia for Freedom Bonham,2013-02-01 A voyage through places and ideas A Little

Nostalgia for Freedom explores the desire to on the one hand put down roots to conform and fit in and on the other yearn for a freer more adventurous life The consequence of surrendering our freedom to the mortgage and the career is that we might end up living not quite the life we expected to live haunted by a sense of possibility just at the edge of our experience As he takes us on a wry and idiosyncratic journey through London Morocco Hong Kong and the Sahara encountering thought provoking and odd characters along the road Steve searches for ways that we can reconnect with our lost sense of freedom by adopting a more audacious way of being and in doing so open up new possibilities in our lives The result challenging and

witty insights into the roots of our restlessness and five rules of the road for a more adventurous and possibly more fulfilling life *A Little Nostalgia for Freedom* is a playful and provoking exploration of psychological freedom that will appeal to anyone who wants to change their life Steve blends travel psychology and the philosophy of identity into a slightly surreal mischievous and challenging exploration of who we are and who we might be The catalyst for this search is the character of Knulp from *Knulp* by Herman Hesse who provides encouragement and advice along the way *The Power of the Herd* Linda Kohanov, 2015-07-20 Linda Kohanov is beloved for her groundbreaking articulation of the way of the horse an experiential wisdom known to riders for centuries but little studied or adapted to off horse use Now Kohanov takes those horse inspired insights on the nonverbal elements of exceptional communication and leadership into the realms of our workplaces and relationships Here we explore the benefits of nonpredatory power in developing assertiveness fostering creativity dealing with conflict and heightening mind body awareness In *A Brief History of Power* the first part of this far reaching book Kohanov profiles cultural innovators who employed extraordinary nonverbal leadership skills to change history usually on horseback Winston Churchill George Washington Alexander the Great and Siddhartha Gautama the Buddha among others She also draws on the behavior of mature horse herds as well as the herding cultures of Africa and Mongolia to debunk theories of dominance hierarchies challenge ingrained notions of survival of the fittest and demonstrate the power of a consensual leadership in which governing roles are fluid Kohanov then adapts these lessons into twelve powerful guiding principles we can all incorporate into our work and personal lives Eloquent and provocative this is horse sense for everyone who seeks to thrive in the herds we all run in our communities careers families and friendships **Nature Prose** Dominic Head, 2022-08-15 *Nature Prose* seeks to explain the popularity and appeal of contemporary writing about nature This book intervenes in key areas of contemporary debate about literature and the environment and explores the enduring appeal of writing about nature during an ecological crisis Using a range of international examples with a focus on late twentieth and early twenty first century writing from Britain and the US Dominic Head argues that nature writing contains formal effects which encapsulate our current ecological dilemma and offer a fresh resource for critical thinking The environmental crisis has injected a fresh urgency into nature writing along with a new piquancy for those readers seeking solace in the nonhuman or for those looking to change their habits in the face of ecological catastrophe However behind this apparently strong match between the aims of nature writers and the desires of their readers there is also a shared mood of radical uncertainty and insecurity The treatment and construction of nature in contemporary imaginative prose reveals some significant paradoxes beneath its dominant moods moods which are usually earnest sometimes celebratory sometimes prophetic or cautionary It is in these paradoxical moments that the contemporary ecological crisis is formally encoded in a progressive development of ecological consciousness from the late 1950s onwards *Nature prose* fiction and nonfiction is now contemporaneous with a defining time of crisis while also being formally fashioned by that context This is a mode of writing that emerges in a world in

crisis but which is also in some ways in crisis itself With chapters on remoteness exclusivity abundance and rarity this book marks a turning point in how literary criticism engages with nature writing *Banzeiro Òkòtó* Eliane Brum,2023-03-09 A confrontation with the destruction of the Amazon by a writer who moved her life into the heart of the forest In lyrical impassioned prose Eliane Brum recounts her move from S o Paulo to Altamira a city along the Xingu River that has been devastated by the construction of one of the largest dams in the world In community with the human and more than human world of the Amazon Brum seeks to reforest herself while building relationships with forest peoples who carry both the scars and the resistance of the forest in their bodies Weaving together the lived stories of the region and its history of violent corruption and destruction *Banzeiro k t* is a call for radical change for the creation of a new kind of human being capable of facing the potential extinction of our species In it Brum reveals the direct links between structural inequities rooted in gender race class and even species and the suffering that capitalism and climate breakdown wreak on those who are least responsible for them The title *Banzeiro k t* features words from two cultural and linguistic traditions banzeiro is what the Amazon people call the place where the river turns into a fearsome vortex and k t is the Yoruba word for a shell that spirals outward into infinity Like the Xingu River turning as it flows this book is a fierce document of transformation arguing for the centrality of the Amazon to all our lives *Hidden Wonders of the Human Heart* Susan Holliday,2021-09-21 *Hidden Wonders of the Human Heart* is a moving testament to ways of seeing which reveal the tender wisdom that stirs in our hearts in times of change and sorrow Drawing on eight true stories of revelation and renewal from her psychotherapy practice Susan Holliday invites us to see the ecology of our hearts as a vital realm alive with the possibility of new beginnings The cultivation of insight has never been more urgent We live in a world awash with glances swipes and clicks The intimate truth of our hearts is increasingly veiled behind categories and labels that merely codify how we feel If we are to appreciate the wonders at play in the depths of our human nature we need to learn how to see ourselves through a more creative vision Weaving compelling storytelling with insight from poets artists and musicians *Hidden Wonders of the Human Heart* takes its place alongside popular nonfiction titles that explore how we can enrich everyday experience by listening feeling and seeing more deeply **Why Rebel** Jay Griffiths,2021-04-08 If bravery itself could write it would write like she does John Berger *Why rebel* Because our footprint on the Earth has never mattered more than now How we treat it in the spirit of gift or of theft has never been more important Because we need a politics of kindness but the very opposite is on the rise Libertarian fascism with its triumphal brutality its racism and misogyny a politics that loathes the living world Because nature is not a hobby It is the life on which we depend as Indigenous societies have never forgotten Only when it is dark enough can you see the stars and they are lining up now to write rebellion across the skies From the author of *Wild* this passionate poetic manifesto for urgent rebellion is also a paean to the deep and extraordinary beauty of the natural world Jay Griffiths helped redefine activism for a generation combining detailed research with a poet s flair for language Her works defy categorisation
