Cash Flow Reporting (RLE Accounting) Thomas Lee, 2014-02-05 There are introductory analyses by the editor and suggested further readings for discussion or essay papers

Statement of Cash Flows Dirk Maßing, 2003-01-31 Seminar paper from the year 2002 in the subject Business economics Accounting and Taxes grade 2.0 B Technical University of Braunschweig Institute for Economics course International Accounting language English abstract This seminar paper will give an introduction to the statement of cash flows which is required as part of the financial statements of the US GAAP The statement facilitates the analysis of the liquidity solvency and financial flexibility of the firm In german law a statement of cash flows was first introduced in 1998 by the KonTraG 1.2 In accordance with this law resp additions to existent law german companies must publish such a statement when they are listed at the stock market 3 The mission and content of the statement in german law is not defined in German Commercial Code HGB but provided by the German Accounting Standards Committee GASC with German Accounting Standards No. 2 GAS 2 It is drawn near IAS 7 of the International Accounting Standards and Statement of Financial Accounting Standards SFAS No. 95 of US GAAP The Security and Exchange Commission SEC sees cash flow statements of IAS 7 and SFAS No. 95 equally and expects both 4 Because there are not many differences between SFAS No. 95 and IAS 7 this paper just focuses on the US GAAP 5 The statement of cash flows is structured in three sections To set up the first section called operating activities you can choose either a direct or an indirect method Both methods show the same investing and financing cash flows and both show the

reconciliation of net income and net operating cash flows The main difference is that only the direct method shows the actual operating cash flows such as collections from customers and payments to suppliers The indirect method uses the reconciliation as its operating activities section that is why it is also called reconciliation method When describing the content or giving examples of the statement the indirect method is used always in this paper In spite of the fact that after SFAS No 95 the Financial Accounting Standards Board FASB is preferring the direct method most companies are using the indirect method This is because in most cases companies do not store all relevant data in their information system to use the direct method In the other two sections investing and financing activities the direct method must be used 6 In the second part this work will give an overview and is showing details of form and content of the statement of cash flows according to the SFAS No 95 as well as it is presenting information about how to prepare the statement Understanding Cash Flow
Franklin J. Plewa, Jr., George T. Friedlob, 1995 The term cash flow is used to describe the analysis of all the changes that affect a company's cash account during an accounting period This book tells readers everything they need to know to understand cash flow and incorporate that knowledge into their strategic management process **Financial Accounting**
