

ELEVENTH **11** EDITION

A scenic photograph of a mountain landscape. In the foreground, a dark, rocky ridge slopes down from the left. Two small figures of hikers are visible on the ridge, one slightly ahead of the other. To their right stands a single, dark evergreen tree. The background is a vast, hazy mountain range with peaks and valleys partially obscured by soft, white clouds. The sky is filled with light, wispy clouds, and a hint of a sun or moon is visible on the left side, casting a gentle glow.

operational mechanisms of at least some of the neuronal centers in the brain and our knowledge of these mechanisms is progressing in a most encouraging manner The stated objective by Prof Leibovic the organizer of the symposium was that it was designed to correlate neuronal machinery with psychophysiological phenomena He calls attention to the urgency of achieving a common conceptual basis for neuro anatomy neurophysiology and psychology
