urban administrators urban economists politicians diplomats soldiers and staff of NGOs and international agencies **The Old Bridge of Mostar and Increasing Respect for Cultural Property in Armed Conflict** Jadranka Petrovic, 2012-11-08 Although it is precious to all humanity including future generations cultural property is targeted wilfully during armed conflict In the litany of other war crimes the wilful destruction of cultural property is pushed from centre stage The deliberate destruction of the Old Bridge of Mostar is emblematic of tragedies wrought on priceless cultural objects internationally Drawing on the relevant rules of international humanitarian law and the jurisprudence of the International Criminal Tribunal for the former Yugoslavia this book analyses the normative implications of the deliberate targeting and destruction of the Old Bridge and also examines enforcement efforts in order to identify issues relating to international legal protection of cultural property arising from this incident **Papers in ITJEMAST 11(12) 2020** , International Transaction Journal of Engineering Management Applied Sciences Technologies publishes a wide spectrum of research and technical articles as well as reviews experiments experiences modelings simulations designs and innovations from engineering sciences life sciences and related disciplines as well as interdisciplinary cross disciplinary multidisciplinary subjects Original work is required Article submitted must not be under consideration of other publishers for publications **Bosnia and the Destruction of Cultural Heritage** Helen Walasek, contributions by Richard Carlton, Amra Hadžimuhamedović, Valery Perry, Tina Wik, 2016-03-03 The massive intentional destruction of cultural heritage during the 1992 1995 Bosnian War targeting a historically diverse identity provoked global condemnation and became a seminal marker in the discourse on cultural heritage It prompted an urgent reassessment of how cultural property could be protected in times of conflict and led to a more definitive recognition in international humanitarian law that destruction of a people s cultural heritage is an aspect of genocide Yet surprisingly little has been published on the subject This wide ranging book provides the first comprehensive overview and critical analysis of the destruction of Bosnia Herzegovina s cultural heritage and its far reaching impact Scrutinizing the responses of the international community during the war including bodies like UNESCO and the Council of Europe the volume also analyses how after the conflict ended external agendas impinged on heritage reconstruction to the detriment of the broader peace process and refugee return It assesses implementation of Annex 8 of the Dayton Peace Agreement a unique attempt to address the devastation to Bosnia s cultural heritage and examines the treatment of war crimes involving cultural property at the International Criminal Tribunal for the former Yugoslavia ICTY With numerous case studies and plentiful illustrations this important volume considers questions which have moved to the foreground with the inclusion of cultural heritage preservation in discussions of the right to culture in human rights discourse and as a vital element of post conflict and development aid **Cities and Crises** Dennis Day, Annette Grindsted, Brigitte Piquard, David Zammit, 2009-01-01 Humanitarian crises caused by conflict or natural disasters have become a growing focus of multi disciplinary studies Research on response mechanisms to humanitarian crises have likewise undergone rapid developments

This volume addresses in particular urban crises It is based on conclusions and case studies discussed by scholars and practitioners who gathered together for HumanitarianNet s Annual Forum 2008 in Odense Denmark *National-level Planning in Democratic Countries* Rachelle Alterman,2001-01-01 Elizabeth A Kaye specializes in communications as part of her coaching and consulting practice She has edited Requirements for Certification since the 2000 01 edition **The Pataphysician's Library** Ben Fisher,2000-01-01 The Pataphysician s Library is a study of aspects of 1890s French literature with specific reference to the traditions of Symbolism and Decadence Its main focus is Alfred Jarry who has proved perhaps surprisingly to be one of the more durable fin de si cle authors The originality of this study lies in its use of the enigmatic list of books termed the livres pairs which appears in Jarry s 1898 novel Gestes et Opinions du docteur Faustroll pataphysicien his best known prose work The greatest interest of the livres pairs lies in a group of works by Jarry s friends and contemporaries primarily Leon Bloy Georges Darien Gustave Kahn Catulle Mendes Josephin Madan Rachilde and Henri de Regnier Several of these authors feature as the lords of islands visited by the pataphysician Dr Faustroll in his curious voyage around Paris In conjunction with Jarry s own works the contemporary livres pairs serve to illustrate the vibrant and experimental atmosphere in which these authors worked Governance in Ethnically Mixed Cities Sherrill Stroschein,2013-10-18 This collection of original essays breaks new ground by examining the dynamics of ethnic politics at the local level rather than following in the footsteps of many previous studies which focus on the macropolitical level of states and nations Governance in Ethnically Mixed Cities is based on extensive fieldwork and local observation providing perspectives from a range of academic disciplines including Political Science Geography and Anthropology It covers a variety of geographic areas from the Middle East Kirkuk Haifa and Tel Aviv Jaffa to Europe Mostar Bolzano Toulouse and Florence Central Asia Osh in Kyrgyzstan and the United States Durham North Carolina In spite of the variety of disciplinary approaches and geographic diversity of the case studies the contributing authors uncover a number of common elements of local ethno-political dynamics in mixed cities the power of informal institutions the effect of numerical balances between groups on local politics and the significance of local competition for material and symbolic resources Each of these areas provides a promising avenue for future research **Europeanisation and Memory Politics in the Western Balkans** Ana Milošević,Tamara Trošt,2020-10-15 This volume explores how the process of European integration has influenced collective memory in the countries of the Western Balkans In the region there is still no shared understanding of the causes and consequences of the Yugoslav wars The conflicts of the 1990s but also of WWII and its aftermath have created ethnically confined memory cultures As such divergent interpretations of history continue to trigger confrontations between neighboring countries and hinder the creation of a joint EU perspective In this volume the authors examine how these memory wars impact the European dimension by becoming a tool to either support or oppose Europeanisation The contributors focus on how and why memory is renegotiated exhibited adjusted or ignored in the Europeanisation process

Cities, Nationalism and Democratization Scott A. Bollens, 2007-04-11 Filling a gap in the peacemaking and conflict literatures market and including a set of over 100 interviews with local political and community leaders this book will be helpful to scholars international organizations and grassroots organizations

After Heritage Hamzah Muzaini, Claudio Minca, 2018-07-27 Focusing on the practices and politics of heritage making at the individual and the local level this book uses a wide array of international case studies to argue for their potential not only to disrupt but also to complement formal heritage making in public spaces Providing a much needed clarion call to reinsert the individual as well as the transient into more collective heritage processes and practices this strong contribution to the field of Critical Heritage Studies offers insight into benefits of the heritage from below approach for researchers policy makers and practitioners

How Generations Remember Monika Palmberger, 2016-12-07 This book is open access under a CC BY 4.0 license This book provides a profound insight into post war Mostar and the memories of three generations of this Bosnian Herzegovinian city Drawing on several years of ethnographic fieldwork it offers a vivid account of how personal and collective memories are utterly intertwined and how memories across the generations are reimagined and rewritten following great socio political change Focusing on both Bosniak dominated East Mostar and Croat dominated West Mostar it demonstrates that even in this ethno nationally divided city with its two divergent national historiographies generation specific experiences are crucial in how people ascribe meaning to past events It argues that the dramatic and often brutal transformations that Bosnia and Herzegovina has witnessed have led to alterations in memory politics not to mention disparities in the life situations faced by the different generations in present day post war Mostar This in turn has created variations in memories along generational lines which affect how individuals narrate and position themselves in relation to the country's history This detailed and engaging work will appeal to students and scholars of anthropology sociology political science history and oral history particularly those with an interest in memory post socialist Europe and conflict studies

The Politics of Post-Conflict Heritage Reconstruction Nour A. Munawar, Gertjan Plets, 2025-07-14 This edited volume explores the politics and semantics of heritage rehabilitation practices such as conservation archaeological excavation memorialization and rebuilding programs Recent conflicts in the Arab region and Ukraine have demonstrated how heritage is an intrinsic part of contemporary warfare However the politicization of heritage reconstruction after conflict receives less attention While there is consensus on the benefits of reconstruction a growing number of scholars are now exploring the political agendas encoded in reconstruction programs and their long term negative effects on societal recovery Faced with a contemporary heritage reconstruction wave in the Arab region but also in post conflict zones like West Africa and Ukraine it is important we are aware of the politicking encoded in many heritage aid programs Through a series of co authored studies by experts from different disciplines this book aims to identify parameters practices and institutional organizations that either promote or undermine long term societal resilience By combining insights from archaeology anthropology conflict and history this book will explore how heritage reconstructions help to reshape national and ethno religious identities and multi layered memories of affected communities
