**Dark Matter** Richard Langston, 2020-08-04 Unravelling the thought of Alexander Kluge and Oskar Negt Collaborators for more than four decades lawyer author filmmaker and multimedia artist Alexander Kluge and social philosopher Oskar Negt are an exceptional duo in the history of Critical Theory precisely because their respective disciplines think so differently *Dark Matter* argues that what makes their contributions to the Frankfurt School so remarkable is how they think together in spite of these differences Kluge and Negt's gravitational thinking balances not only the abstractions of theory with the concreteness of the aesthetic but also their allegiances to Frankfurt School mentors with their fascination for other German French and Anglo American thinkers distinctly outside the Frankfurt tradition At the core of all their adventures in gravitational thinking is a profound sense that the catastrophic conditions of modern life are not humankind's unalterable fate In opposition to modernity's disastrous state of affairs Kluge and Negt regard the huge mass of dark matter throughout the universe as the lodestar for thinking together with others for dark matter is that absolute guarantee that happier alternatives to our calamitous world are possible As illustrated throughout Langston's study dark matter's promise its critical orientation out of catastrophic
