Libraries and Archives Tomas Lidman, 2012-06-22 Libraries and Archives analyses the facts and arguments behind an increasing debate as to what extent libraries and archives are fulfilling the same missions Despite the fact that they have different legal statuses legal frameworks and the work flow looks very different some politicians and bureaucrats think that there is much to gain if the two institutions work closely together or even merge To understand the present situation it is important to have an understanding of the role of libraries and archives and their shared history Therefore the development up to the present day is analysed in the first chapters of the book The book stimulates debate and brings forth valuable facts about the topic The main focus is on national libraries and national and regional archives from an international point of view Offers a simple but comprehensive background to explain key issues behind the current debate Provides librarians and archivists with arguments The author has more than 40 years experience on the national and international archive and library scene
