De Kok, 2016-06-14 The title Phosphorus in Agriculture 100 % Zero is synonymous for make or break And it stands up to the promise This book sends an important message as it delivers background information intrinsic hypotheses validation approaches and legal frameworks all for balanced phosphorus fertilization in agriculture This implies firstly that the phosphorus requirement of crop is fully satisfied by applying exclusively fertilizers which contain the nutrient in completely available form Secondly environmental demands through eutrophication and hazardous contaminants must not be compromised The book identifies equally knowledge gaps and deficits in the transformation and implementation of research into practice Bottom line is that research delivers the tools for a sustainable phosphorus management while legal frameworks are insufficient    The Agricultural Cooperative in the Framework of the European Cooperative Society Georg Miribung, 2020-04-09 This book assesses the Statute for a European Cooperative Society SCE regarding agricultural activities by comparing how specific questions arising in this context must be dealt with under the Italian and Austrian legal systems In this regard Council Regulation EC No 1435 2003 of 22 July 2003 on the Statute for a European Cooperative Society SCE is used as a tool for the structured analysis of various aspects of agricultural cooperatives However a comparison is only meaningful if the results are made comparable on the basis of a previously defined standard Accordingly the study uses on one hand a cooperative model developed by European legal scholars that defines general guidelines on how cooperatives should function PECOL On the other the results are presented in connection with economic considerations to discuss how efficient rules can be developed    *Agricultural Economics Literature* United States.
