The Educational Testing Act of 1981 United States. Congress. House. Committee on Education and Labor. Subcommittee on Elementary, Secondary, and Vocational Education,1982

Changing the Course of Failure Sandra Stotsky,2018-05-18 The basic purpose of this book is to help policy makers at all levels of government understand that 1 widespread adolescent underachievement is not susceptible to solution by educational interventions no matter how much money is allocated to public education and 2 there are unidentified educational and civic costs to focusing on low achievement and to expecting public institutions of education for K 12 and college to solve a growing social problem Many policy makers seem to think that teachers schools are the primary cause of low achievement Educational institutions still cannot solve a non education caused problem and haven t done so for over fifty years despite all the public and private money that has been allocated The book concludes with suggested policies for addressing the damage to public education from gap closing standards and with suggested areas for policy making in order to change the current course of failure for many low achieving students

[Integrating Timing Considerations to Improve Testing Practices](#) Melissa J. Margolis, Richard A. Feinberg, 2020-06-03

[Integrating Timing Considerations to Improve Testing Practices](#) synthesizes a wealth of theory and research on time issues in assessment into actionable advice for test development administration and scoring. One of the major advantages of computer-based testing is the capability to passively record test-taking metadata including how examinees use time and how time affects testing outcomes. This has opened many questions for testing administrators: Is there a trade-off between speed and accuracy in test taking? What considerations should influence equitable decisions about extended time accommodations? How can test administrators use timing data to balance the costs and resulting validity of tests administered at commercial testing centers? In this comprehensive volume, experts in the field discuss the impact of timing considerations, constraints, and policies on valid score interpretations, administrative accommodations, test construction, and examinees' experiences and behaviors, and how to implement the findings into practice. These 12 chapters provide invaluable resources for testing professionals to better understand the inextricable links between effective time allocation and the purposes of high-stakes testing.

The New Accessibility in Higher Education Adam R. Lalor, 2025

The New Accessibility in Higher Education explores the role and presence of accessibility within the higher education environment. The text considers the multidimensionality of accessibility and how individuals connected to the higher education environment—students, faculty, administrators, community stakeholders, researchers, and policymakers—must reconsider how accessibility in postsecondary education is understood and achieved.
