**Seattle Walks** David B. Williams, 2017-03-15 Seattle is often listed as one of the most walkable cities in the United States With its beautiful scenery miles of non motorized trails and year round access Seattle is an ideal place to explore on foot In Seattle Walks David B Williams weaves together the history natural history and architecture of Seattle to paint a complex nuanced and fascinating story He shows us Seattle in a new light and gives us an appreciation of how the city has changed over time how the past has influenced the present and how nature is all around us even in our urban landscape These walks vary in length and topography and cover both well known and surprising parts of the city While most are loops there are a few one way adventures with an easy return via public transportation Ranging along trails and sidewalks the walks lead to panoramic views intimate hideaways architectural gems and beautiful greenways With Williams as your knowledgeable and entertaining guide encounter a new way to experience Seattle A Michael J Repass Book

*Shaping Seattle Architecture* Jeffrey Karl Ochsner, 2016-06-01 The first edition of *Shaping Seattle Architecture* published in 1994 introduced readers to Seattle's architects by showcasing the work of those who were instrumental in creating the region's built environment. Twenty years later the second edition updates and expands the original with new information and illustrations that provide an even richer exploration of Seattle architecture. The book begins with a revised introduction that brings the story of Seattle architecture into the twenty-first century and situates developments in Seattle building design within local and global contexts. The book's fifty-four essays present richly illustrated profiles that describe the architects' careers, provide an overview of their major works, and explore their significance. *Shaping Seattle Architecture* celebrates a wide range of people who helped form the region's built environment. It provides updated information about many of the architects and firms profiled in the first edition. Four individuals newly included in this second edition are Edwin J. Ivey, a leading residential designer; Fred Bassetti, an important contributor to Northwest regional modernism; L. Jane Hastings, one of the region's foremost women in architecture; and Richard Haag, founder of the landscape architecture program at the University of Washington and designer of Gas Works Park and the Bloedel Reserve. The book also includes essays on the buildings of the Coast Salish people who inhabited Puget Sound prior to Euro-American settlement; the role that architects played in speculative housing developments before and after World War II; and the vernacular architecture built by nonprofessionals that makes up a portion of the fabric of the city. *Shaping Seattle Architecture* concludes with a substantial reference section updated to reflect the last twenty years of research and publications. A locations appendix offers a geographic guide to surviving works. The research section directs interested readers to further resources, and the appendix 'Additional Significant Seattle Architects' provides thumbnail sketches of nearly 250 important figures not included in the main text.

*Inside Pike Place Market*, 2021-08-17 *Inside Pike Place Market* is a visually rich digital book that celebrates the urban design role of citizen activism, immigrant and cultural groups, and principles embedded in the foundation of the Market. The Market's unique characteristics and history make it one of the most successful and most studied public markets in the world. This book includes hundreds of photographs, maps, and documents of the Market's past and present, and it is designed to be a free resource for historians, educators, students, and others interested in the history, function, and politics of public markets, and in particular Pike Place Market. *Inside Pike Place Market* is made possible in part by a grant from 4Culture King County Lodging Tax.
