Secondary School Teaching and Educational Psychology David Galloway, Anne Edwards, 2014-01-21 A companion volume to Primary School Teaching and Educational Psychology this book concerns itself with the day to day business of teaching in a secondary school Throughout the book four themes reoccur that teachers can best understand the development of children by observing their learning and their relationships within school that assessment and evaluation are integral to effective teaching that effective teaching and learning depend on both teacher and child being able to monitor own progress and to find solutions to problems that occur and finally that there must be explicit recognition of the common ground between educational psychology and other disciplines such as sociology philosophy and the history of education Primary School Teaching and Educational Psychology David Galloway, Anne Edwards, 2014-09-25 Drawing upon extensive research David Galloway and Anne Edwards analyse the increasing pressures on teachers from the national curriculum and other recent legislation They look carefully at childrens learning and behavioural difficulties and show how educational psychology can extend our understanding of teacher s day to date work in the classroom Primary Teaching and Educational Psychology is a refreshing and at times controversial examination of primary teaching and the application of educational psychology It will be essential reading for trainee teachers and will stimulate more experienced teachers to re evaluate their current practices Teaching Challenges in Secondary Schools Alyssa R. Gonzalez-DeHass, Patricia P. Willems, 2017-09-13 This case study book serves as a valuable tool for professors and instructors of educational psychology It contains 17 cases that represent current areas of interest in Educational Psychology embedded within current challenges that teachers face in today s middle and high school classrooms The cases are organized into six major parts Human Development Individual Differences and Diversity Learning Theories Motivation Classroom Management Instructional Approaches and Assessment and Evaluation Each case describes a detailed teaching scenario written from either the student or the teachers perspective To engage students in critical thinking perspective taking analysis problem solving and decision making the cases have been intentionally written without a conclusion Because the cases are open ended it allows the professor or instructor more flexibility and autonomy in how they use the cases Each case is followed by thought provoking questions highlighting the significant issues in the case from which to analyze the case and apply various theoretical viewpoints While the cases do not replace actual classroom experience they present a way to immerse students in the classroom s culture by providing them with real life teaching examples Supporting Effective Learning Eileen Carnell, Caroline Lodge, 2002-01-04 This teacher friendly book focuses on how secondary students learn and how those in different roles in schools can promote their learning *Why Do Teachers Need to Know About Psychology?* Jeremy Monsen, Lisa Marks Woolfson, James Boyle, 2021-01-28 As a teacher what are my personal social and emotional responsibilities in supporting pupils with psychological development Psychology has underpinned educational practice since its inception but understanding what that means in practical terms

for educational settings today can seem bewildering. The team draw upon the whole field covering not only developmental health and educational child psychology but also organisational and counselling perspectives. Drawing on examples from rural early years settings to large urban secondary schools, this book looks at how psychology can support your teaching practice. It does this by looking at different situations within a teacher's roles and responsibilities and what this also means for understanding their professional identity. Expertly crafted by Jeremy Mosen, Lisa Marks Woolfson and James Boyle, bringing together the expertise of a team of practitioners and psychologists, this book draws together the latest research and current practice. The team also support you to consider and develop your own views, beliefs and values and explores why it is your responsibility as an educator to make use of psychology not only to ensure the best possible opportunities for children and young people but also for your own growth in your professional journey.

Educational Objectives and the Teaching of Educational Psychology Edgar Stones, 2012. The purpose of this book is to promote discussion about educational objectives generally and objectives in the teaching of educational psychology in particular. To this end, Part 1 contains a review of the literature concerned with these two subjects and also reports on investigations into the views of British students, teachers, college staffs and educational psychologists on the question of the objectives of educational psychology in teacher preparation. A comprehensive bibliography is provided. A further important section of Part 1 proposes a method of systematizing teaching objectives and suggests a heuristic device for the generation of objectives at different levels of conceptual generality and complexity of learning. An example of this model in the field of educational psychology is presented which illustrates the general approach to the generation of teaching objectives and proposes a specific approach to the production of teaching objectives in educational psychology. In Part 2, a selection of readings in the fields of objectives and educational psychology provides the reader with some of the key source material referred to in Part 1. As well as being a valuable and stimulating addition to the current debate on the specifying of educational objectives, the arguments in this book about the role of educational psychology in teacher preparation raise some fundamental questions for those concerned with teacher education.

Effective Teacher Cedric Cullingford, 2010-06-15. This book uses research studies and the experiences of teachers to show how and why people can become effective teachers. The author asserts that it is always possible to learn to become a more effective teacher and encourages the student teacher to develop their professional practice.

Positive Teaching in the Secondary School Kevin Wheldall, Frank Merrett, Stephen Houghton, 1989-10-28. Managing troublesome behaviour in the classroom is a problem faced by every secondary school teacher at some time. Some nursery and infant teachers claim that every year more and more young children are starting school with behavioural problems. Teachers too frequently complain of lessons being disrupted by unacceptable behaviour and yet the important skills of effective classroom management are seldom mentioned in initial teacher training. The authors argue that the answer lies in positive teaching and show how by accentuating the positive and being more sensitive in their interactions with children and

young people in schools teachers can build less stressful and more effective teaching and learning environments

On Becoming an Effective Teacher Carl Rogers, Harold Lyon, Reinhard Tausch, 2013-08-22 *On Becoming an Effective Teacher* describes exemplary practices like Teach For America which highlight the power of person centered teaching to bring about higher student achievement and emotional intelligence Lyon situates the classic with the cutting edge integrating wisdom with research anecdote with practical advice to find truths that reveal paths toward effective teaching Jeffrey Cornelius White Psy D LPC Professor of Counseling Missouri State University USA Author of *Learner Centered Instruction Building Relationships for Student Success* This fascinating book reveals through current research and contemporary applications that Carl Rogers pioneering and radical approach to education is as relevant today as it was in the 1970s and 80s Brian Thorne University of East Anglia UK Carl Rogers is one of the most influential psychologists of the twentieth century His influence is similarly outstanding in the fields of education counselling psychotherapy conflict resolution and peace *On Becoming an Effective Teacher* presents the final unpublished writings of Rogers and as such has not only unique historical value but also a vital message for today s educational crises and can be read as a prescription against violence in our schools It documents the research results of four highly relevant related but independent studies which comprise the biggest collection of data ever accumulated to test a person centred theory in the field of education This body of comprehensive research on effective teaching was accomplished over a twenty year period in 42 U S States and in six other countries including the UK Germany Brazil Canada Israel and Mexico and is highly relevant to the concerns of teachers psychologists students and parents The principal findings of the research in this book show that teachers and schools can significantly improve their effectiveness through programs focusing on facilitative interpersonal relationships Teachers who either naturally have or are trained to have empathy genuineness congruence and who prize their students positive regard create an important level of trust in the classroom and exert significant positive effects on student outcomes including achievement scores interpersonal functioning self concept attendance and violence The dialogues between Rogers and Lyon offer a unique and timeless perspective on teaching counselling and learning The work of Reinhard Tausch on person centered teaching for counselors parents athletics and even textbook materials and the empathic interactions of teachers and students is among the most thorough and rigorous research ever accomplished on the significance and potential of a person centered approach to teaching and learning This pioneering textbook is highly relevant to educational psychologists and researchers as well as those in undergraduate and graduate university courses in education teacher training counseling psychology and educational psychology
