researcher looking for a concise overview of or a researcher looking for a concise overview of the literature this book will be a valuable acquisition Australian National Bibliography: 1992 National Library of Australia,1988 **Science Books & Films** ,1981 **International Perspectives on Teacher Professional Development** Susan Rodrigues,2005 Teacher professional development is subject to reform as a consequence of three often interwoven influences innovation politics and pedagogy For example recent decades have seen learning and teaching take centre stage As technologies have become more accessible and relevant so professional development has had to keep pace in order to provide teachers with an opportunity to develop skills and experiences to deal with this innovation In terms of politics as the prescription of input and the measurement of output are regulated and deregulated by the State so teacher professional development shifts to meet accountability and credibility demands Likewise as our understanding of learning and teaching evolves in terms of knowledge processes dispositions and evaluation subsequent teacher professional development programmes responded to these current or in vogue research findings This new and much needed book describes how teacher professional development in science education from initial teacher education to continuing professional development continues to face and address the various challenges that arise as a consequence of innovation politics or pedagogy The Hidden Curriculum - Faculty Made Tests in Science Sheila Tobias,1997 *Storybridge to Second Language Literacy* Irma-Kaarina Ghosn,2013-09-01 Storybridge to Second Language Literacy makes a case for using authentic children s literature alternately also referred to as stories or real books as the medium of instruction in teaching English to young learners particularly in contexts where children must access general curriculum subjects in English The author first proposes theoretical foundations for the argument that illustrated children s books are superior to traditional language teaching courses in the primary school She builds the case around the motivational power of stories the language and content of quality children s literature and the potential of literature to contribute to development of second language academic literacy She then reviews research of the past thirty years that clearly supports her claim Finally she uses transcripts from real classrooms to illustrate how teachers in diverse contexts make use of stories Through the classroom vignettes a practical model of literature based instruction emerges that is adaptable to a wide range of primary school teaching contexts including English as a second language contexts in core English countries Storybridge to Second Language Literacy compiles in one volume solid theoretical foundations for story based instruction research evidence of the past thirty years supporting the approach not currently available in a single source and extensive classroom vignettes illustrating diverse practical applications not lesson plans This makes the book valuable for anyone in the field of young learner ELT MA students in TESOL will find the book useful and will develop an understanding of why and how literature based instruction works and develop insight to guide their practice Members of TESOL Elementary Education EFL and Bilingual Education SIGs and IATEFL Young Learner SIG will be interested in the volume Instructors of teacher development courses should also find the proposed volume a valuable addition to assigned
