Journals of the Century Tony Stankus,2019-12-06 This book first published in 2002 gathers some of America s top subject expert librarians to determine the most influential journals in their respective fields 32 contributing authors reviewed journals from over twenty countries that have successfully shaped the evolution of

their individual specialties worldwide Their choices reflect the history of each discipline or profession taking into account rivalries between universities professional societies for profit and not for profit publishers and even nation states and international ideologies in each journal s quest for reputational dominance Each journal was judged using criteria such as longevity of publication foresight in carving out its niche ability to attract none are in the employ of any publisher but each is fully credentialed and well published and many are award winners The authors guide college and professional school librarians on limited budgets via an exposition of their analytical and critical winnowing process in determining the classic resources for their faculty students and working professional clientele The Quest for Human Longevity Lewis D.

Solomon,2017-12-02 Many scientists today are working to retard the aging process in humans so as to increase both life expectancy and the quality of life Over the past decade impressive results have been achieved in targeting the mechanisms and pathways of aging In The Quest for Human Longevity Lewis D Solomon considers these scientific studies by exploring the principal biomedical anti aging techniques The book also considers cutting edge research on mental enhancements and assesses the scientific doubts of skeptics The Quest for Human Longevity is also about business Solomon examines eight corporations pursuing various age related interventions profiling their scientific founders and top executives and examining personnel intellectual property and financing for each firm Academic scientists form the link between research and commerce Solomon notes that the involvement of university scientists and researchers follows one of two models The first is a traditional model in which scientists leave academia to work for a corporation or remain in academia and obtain business support for their research The second is a modern model in which scientists use their intellectual property as a catalyst for acquiring equity interests in the firms they organize Critics have pointed to the dangers of commercialized science but Solomon s analysis on balance finds that the benefits outweigh the costs and that problems of secrecy and conflicts of interest can be addressed If scientists succeed in unlocking the secrets of aging and developing drugs or therapies that will allow us to live decades longer the consequences for society will include profound social political economic and ethical questions Solomon deals with the public policy aspects of significant life extension and looks at the conflict between those who advocate the acceptance of mortality and the partisans of life The Quest for Human Longevity will be of interest to policymakers sociologists scientists and studen *Exploration of Artificial Intelligence and Blockchain Technology in Smart*
