Murnane,2014-01-01 In this landmark volume Greg J Duncan and Richard J Murnane lay out a meticulously researched case
showing how in a time of spiraling inequality strategically targeted interventions and supports can help schools significantly
improve the life chances of low income children The authors offer a brilliant synthesis of recent research on inequality and its
effects on families children and schools They describe the interplay of social and economic factors that has made it
increasingly hard for schools to counteract the effects of inequality and that has created a widening wedge between low and
high income students Restoring Opportunity provides detailed portraits of proven initiatives that are transforming the lives of
low income children from prekindergarten through high school All of these programs are research tested and have
