Essays on Literature and Music (1985 - 2013) by Walter Bernhart Walter Bernhart, 2015-07-28. This volume is dedicated to the musico-literary oeuvre of Walter Bernhart, professor of English literature at Karl Franzens Universität Graz, Austria, and pioneer in the field of intermedial relations between literature and other arts and media. It renders accessible a wide variety of texts which are sometimes no longer easily retrievable. The 37 texts collected here, in chronological order, span the period from 1985 to 2013 and thematically range from contributions to opera programmes and the discussion of musical aspects of Romantic and modernist poetry to inquiries into individual operas and composers as well as into theoretical aspects of word and music relations, e.g. the ways of setting poetry to music, musico-literary comparative poetics, the concept of genre in music and literature, iconicity in both media, their narrative as well as metareferential and illusionist capacities. The volume is of relevance to literary scholars and musicologists but also to all those with an interest in intermediality studies in general and in the relations between literature and music in particular.

Advancing Human Assessment Randy E. Bennett, Matthias von Davier, 2017-10-17. This book is open access under a CC BY-NC 2.5 license. This book describes the extensive contributions made toward the advancement of human assessment by scientists from one of the world's leading research institutions, Educational Testing Service. The book's four major sections detail research and development in measurement and statistics, education policy analysis and evaluation, scientific psychology and validity. Many of the developments presented have become de facto standards in educational and psychological measurement, including item response theory (IRT), linking and equating, differential item functioning (DIF), and educational surveys like the National Assessment of Educational Progress (NAEP), the Programme of International Student Assessment (PISA), the Progress of International Reading Literacy Study (PIRLS), and the Trends in Mathematics and Science Study (TIMSS). In addition to its comprehensive coverage of contributions to the theory and methodology of educational and psychological measurement and statistics, the book gives significant attention to ETS work in cognitive, personality, developmental, and social psychology and to education policy analysis and program evaluation. The chapter authors are long-standing experts who provide broad coverage and thoughtful insights that build upon decades of experience in research and best practices for measurement, evaluation, scientific psychology, and education policy analysis. Opening with a chapter on the genesis of ETS and closing with a synthesis of the enormously diverse set of

contributions made over its 70 year history the book is a useful resource for all interested in the improvement of human assessment **The Cambridge Review** ,1885 **Congressional Record** United States. Congress,1948
