The most beautiful and important aspect of Thana's life. It marks a new chapter as one of the best things to happen to her created herself even though it was conflict and needs. It was a place and she could think things more clearly, and ideas that she had never thought of before. She expected that she starts to live a double life where during day she was filled with tasks and has the responsibility of being a Kresheng Child, and at night she could escape and be herself, she can be herself without having anyone say her, she has freedom and all the time in the world.
