become the anchors for sprawling metropolitan regions This population explosion has been fueled by the maturing of Las Vegas as the nation's entertainment capital the rise of Reno as a magnet for multitudes of California expatriates the development of Salt Lake City's urban corridor along the Wasatch Range and the growth of Boise's celebrated high tech economy and hip urban culture The blooming of cities in a fragile desert region poses a host of environmental challenges The policies required to manage their impact however often collide with an entrenched political culture that has long resisted cooperative or governmental effort The alchemical mixture of three ingredients cities aridity and a libertarian political outlook makes the Great Basin a compelling place to study This book addresses a pressing question are large cities ultimately sustainable in such a fragile environment Blue Metros, Red States David F. Damore, Robert E. Lang, Karen A.

Danielsen, 2020-10-06 Assessing where the red blue political line lies in swing states and how it is shifting Democratic leaning urban areas in states that otherwise lean Republican is an increasingly important phenomenon in American politics one that will help shape elections and policy for decades to come *Blue Metros Red States* explores this phenomenon by analyzing demographic trends voting patterns economic data and social characteristics of twenty seven major metropolitan areas in thirteen swing states that will ultimately decide who is elected president and the party that controls each chamber of Congress The book's key finding is a sharp split between different types of suburbs in swing states Close in suburbs that support denser mixed use projects and transit such as light rail mostly vote for Democrats More distant suburbs that feature mainly large lot single family detached houses and lack mass transit often vote for Republicans The book locates the red blue dividing line and assesses the electoral state of play in every swing state This red blue political line is rapidly shifting however as suburbs urbanize and grow more demographically diverse *Blue Metros Red States* is especially timely as the 2020 elections draw near *Buildings of Nevada* Julie Nicoletta, 2000
