YOU and Your Own Universe Silviu Pristavu, 2022-04-22 What if you found out that you're not who you believe you are What if I told you that you're not who your family thinks you are What if you're not the person that people around you see and hear What if the human being is in reality the fusing element of two worlds physical and spiritual What if in the human body you can find both physical and spiritual where the spiritual manifests physically What if what we call the mind as we know it is actually the gate through which the two worlds meet cross and exchange information What You are as a spiritual being can't be described in any human language What You are can't be seen by any human eyes What You say can't be heard by any physical ears You are the awareness in you the consciousness You are the love the joy and the happiness that bursts out of you You are the creator of your body and the creator of Your Own Universe You are limitless You are wealth You are health You are all these things combined and more You are something that can only be felt through your physical body and you will feel You long before you finish reading this book This book is not religious It doesn't aim to favour one religion or discredit another If anything it's a tool for any religion that's been created from the beginning of humanity and helps explain phenomena that couldn't have been explained otherwise It supports science equally however it doesn't just support theories that are based purely on physical evidence though it may provide answers where these haven't been found yet if one is open to accepting a different point of view It was written to serve as a manual for life explaining how things become what they are and providing confidence and strength to
