Gangel, 1997-01-05 Team leadership is the exercise of one's spiritual gifts under the call of God to serve a certain group of people in achieving the goals God has given them toward the end of glorifying Christ How is your church or organization governed Does it have an authoritarian top down administration Is the ministry vision developed by a few top officials with little input from staff or volunteers Today the definition of an effective leader has changed No longer does the model leader manage like the Lone Ranger either do it

his way or no way Today the model leader shares responsibility with fellow team leaders and seeks to serve them In this complete revision of his earlier work Building Leaders for Church Education Dr Gangel carefully lays a biblical foundation for the team leadership model This leadership is not dogmatic control or personality worship It has no room for political power plays Instead it is Paul gently nurturing young Christians in his epistles It is Barnabas willingly thrusting others into situations where they develop their own gifts It is Christ choosing not one but twelve men to carry on His ministry It is servant leadership With examples illustrations and suggestions for further reading at the end of each chapter Dr Gangel prods and encourages the reader to move beyond the safety net of autocratic leadership into the rewarding effective practice of leading with and through others

Religion, Populism, and Modernity Atalia Omer, Joshua Lupo, 2023-09-15 In this timely book an interdisciplinary group of scholars investigates the recent resurfacing of White Christian nationalism and racism in populist movements across the globe Religion Populism and Modernity examines the recent rise of White Christian nationalism in Europe and the United States focusing on how right wing populist leaders and groups have mobilized racist and xenophobic rhetoric in their bids for political power As the contributors to this volume show this mobilization is deeply rooted in the broader structures of western modernity and as such requires an intersectional analysis that considers race gender ethnicity nationalism and religion together The contributors explore a number of case studies including White nationalism in the United States among both evangelicals and Catholics anti and philosemitism in Poland the Far Right party Alternative for Germany Islamophobia in Norway and France and the entanglement of climate change opposition in right wing parties throughout Europe By extending the scope of these essays beyond Trump and Brexit the contributors remind us that these two events are not exceptions to the rule of the normal functioning of liberal democracies Rather they are in fact but recent examples of long standing trends in Europe and the United States As the editors to the volume contend confronting these issues requires that we not only unearth their historical precedents but also imagine futures that point to
