**Sport and British Jewry** David Dee,2013-02-05 Sport and British Jewry provides the first wide ranging examination of the importance of sport in the history of the British Jewish community Covering the period from 1890 through to 1970 it examines the peak era of Jewish involvement and interest in sport and physical recreation in Britain in recent times The book tackles three main themes First the author examines the relationship between sport and the integration of the Jewish migrant community of the late nineteenth and early twentieth century Secondly the study looks at how sport impacted on Jewish ethnicity Thirdly it addresses how sport became linked to expressions of anti Semitism and Jewish responses to racial discrimination Sport and British Jewry not only demonstrates the significant impact that Jews had on British sport during this time frame but also shows the considerable effect that sport had on the lives experiences and identities of Jews within British society *Historical Abstracts* Eric H. Boehm,1998 **Jews and British Sport** David Gareth Dee,2011 Between the 1890s and the 1960s sport had a distinctive and varied impact on the social cultural political and economic life of the British Jewish community During this period Anglo Jewry developed a clear sporting tradition in both a direct and indirect sense and their participation in the world of British sport had a significant impact on processes and discourses surrounding integration ethnicity and anti Semitism Through a broad analysis of archival materials newspaper sources and oral history this thesis seeks to examine the influence that sport exerted on the Jewish community paying particular attention to the ways in which physical recreation affected the internal dynamics of the community and influenced Jewish relations and interactions with the wider non Jewish population As will be shown whilst sport is a useful lens through which to view socio cultural development within Anglo Jewish history evidence suggests that physical recreation also had a notable and noticeable direct impact on Jewish life within Britain Although Jewish sport history is an expanding field in an international context it has been largely ignored within British academic research Within the historiography of Anglo Jewry little attention has been paid to the socio cultural impact of sporting participation Similarly within research concerning British sport history race and immigration are themes that have been generally overlooked As well as redressing important historiographical gaps this thesis will also help expand our knowledge of the process behind minority integration and will further demonstrate the wider social importance and the extensive and varied applications of the historical study of sport This thesis demonstrates that sport has been a key area for the creation maintenance and erosion of Anglo Jewish identity and has been an arena for the development reinforcement and undermining of Jewish stereotypes Sport effectively assumed a central role in Jewish life throughout this time period and was a pivotal factor in many social cultural and political changes affecting the Jewish community of Britain
