social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities. This form of regulation appears in a variety of legal areas including criminal law, labour law, commercial law, tax law, competition law and tort law and may vary following a particular type or sector of sport. It is in this dual and overlapping context that such much publicized aspects as doping, sponsoring and media and responsibility for injuries are legally measured. This monograph fills a gap in the legal literature by giving academics, practitioners, sports organizations and policy makers access to sports law at this specific level. Lawyers representing parties with interests in Australia will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law.
