Mindful Crafts as Therapy Cynthia Evetts, Suzanne Peloquin, 2017-04-28 Arts and crafts were one of the very first therapies employed by occupational therapists. Today crafts are still employed as effective interventions for clients with mental health disorders, physical dysfunctions, cognitive issues, and sensory concerns in hospitals, outpatient clinics, veterans centers, schools, skilled nursing facilities, or community settings. Step by step, the authors show you how to use a wide range of novel and highly engaging crafts. They explain how to connect the key tasks associated with an activity to functional outcomes and how to modify them to meet the specific needs of individual patients. They also address the issues of documentation and reimbursement.
