Cell Organization

Eukaryotic cells are a complex and busy place, but if you look closely, there are patterns that emerge. Each cell can be divided into two major parts: the nucleus and the cytoplasm.

- The **cytoplasm** is the portion of the cell outside the nucleus. It is made up of water and dissolved chemicals. Prokaryotic cells (that do not have a nucleus) also contain cytoplasm.
- Within the cytoplasm are several structures that act as if they are specialized organs. They are called **organelles**, which means "little organs".

The Nucleus

In the same way that the main office controls a large factory, the **nucleus is the control center of the cell**. The nucleus contains nearly all the cell's DNA and, with it, the coded instructions for making proteins and other important molecules.

The nucleus is surrounded by a nuclear envelope.

- The nuclear envelope is dotted with thousands of nuclear pores, which allow material to move into and out of the nucleus.
- A steady stream of proteins, RNA, and other molecules move through the nuclear pores to and from the rest of the cell. This is just like messages, instructions and blueprints moving into and out of a main office.

Chromosomes, which carry the cell's genetic information are found in the nucleus. Most of the time, chromosomes are spread out throughout the

Supreme Court and Judicial Choice Paul R. Dimond,2025-10-01 The conventional wisdom holds that the Supreme Court provides the final word as the Court tells the people what the Constitution commands In interpreting uncertain constitutional text however the Court is not provided with a single answer but must itself make hard choices Such choices by an unelected Court appear to conflict with the basic principle of majority rule by the people through their elected representatives in our democracy Over time through public debate new arguments before the Court legislation new appointments to the Court and constitutional amendments however the Court s prior judgements evolve are distinguished or modified and are even directly overturned Viewed from this longer term perspective the Court s supposedly final rulings can therefore be seen as an integral part of an ongoing national dialogue over the meaning of the Constitution This understanding makes judicial review more consistent with our tradition of government by the people rather than by the Court To explore this understanding The Supreme Court and Judicial Choice develops a provisional approach to judicial review under which a surprisingly large number of judicial rulings would be subject to modification by ordinary legislation enacted by Congress Far from rendering the Court a powerless subject of Congress this proposal would enhance the vital role of the Court in stimulating and shaping the ongoing dialogue with the people over the meaning of the Constitution **The Concept of Group Rights in**
