Lassiter, 2023-11-07 How the drug war transformed American political culture Since the 1950s the American war on drugs

has positioned white middle class youth as sympathetic victims of illegal drug markets who need rehabilitation instead of incarceration whenever they break the law The Suburban Crisis traces how politicians the media and grassroots political activists crusaded to protect white families from perceived threats while criminalizing and incarcerating urban minorities and how a troubling legacy of racial injustice continues to inform the war on drugs today In this incisive political history Matthew Lassiter shows how the category of the white middle class victim has been as central to the politics and culture of the drug war as racial stereotypes like the foreign trafficker urban pusher and predatory ghetto addict He describes how the futile mission to safeguard and control white suburban youth shaped the enactment of the nation s first mandatory minimum drug laws in the 1950s and how soaring marijuana arrests of white Americans led to demands to refocus on real criminals in inner cities The 1980s brought just say no moralizing in the white suburbs and militarized crackdowns in urban centers The Suburban Crisis reveals how the escalating drug war merged punitive law enforcement and coercive public health into a discriminatory system for the social control of teenagers and young adults and how liberal and conservative lawmakers alike The Cambridge Companion to Benjamin Britten Mervyn pursued an agenda of racialized criminalization Cooke, 1999-06-28 The Cambridge Companion to Benjamin Britten is a comprehensive guide to the composer's work aimed both at the non specialist and music student It sheds light on both the composer's stylistic and personal development offering new interpretations of his operatic works and discussing his characteristic working methods Topics treated here in detail for the first time include Britten's work in the cinema in the 1930s his lifelong pacifism and his strong interest in the music of the Far East other chapters include reassessments of his relationship with W H Auden and his attitude towards childhood comprehensive analyses of major works and a concise history of the Aldeburgh Festival A distinguished team of contributors include some who worked with the composer during his lifetime as well as leading representatives of the younger generation The Big Book of Virginia Ghost Stories L. Vlachos, 2009-01-01 First Corinthians 15 56 The sting of death is sin and the power of sin is the law is both puzzling and neglected It is puzzling since there appears to be no precursor in 1 Corinthians to the law critical statement found there It is neglected because of its size Nevertheless the short verse offers the opportunity to analyze in a rudimentary state Paul's law sin notion that appears full blown in Romans and the absence of a polemical setting allows scholars to examine a law critical statement issued during a polemical lull In The Law and Knowledge of Good and Evil Vlachos weighs attempts to explain the presence of 1 Cor 15 56 in 1 Corinthians and argues that the Genesis Fall narrative where the tempter plied his seductions by way of the commandment provides the theological substructure to Paul's understanding of the law's provocation of sin In doing so Vlachos contends that Paul reaches the historical high water mark of his polemic against the salvific efficacy of the law by locating a law sin nexus in Eden and contrary to some recent perspectives on Paul he argues that the edenically informed axiom in 1 Cor 15 56 suggests that Paul's fundamental concern with the law was rooted in primordial rather than ethnic soil While studies of Paul and the law have tended to bypass Eden The Law and Knowledge of Good and Evil breaks ground by moving the argument beyond Second Temple Judaism to the Genesis Fall account where the prohibition against partaking of the knowledge of good and evil led to the knowledge of sin
