Sekem A Sustainable Community In The Egyptian Desert:

Sekem Ibrahim Abouleish, 2005 The Egyptian desert can be a hostile place Yet in 1977 Dr Ibrahim Abouleish founded a new agricultural and social settlement on seventy hectares of desert land in Belbes 60 km north east of Cairo The Sekem initiative was born Dr Abouleish's goals were to build a new type of community His vision was for a farm which grew biodynamic crops and plants out of the harsh desert sand Where the workers and residents were given holistic primary health care Where their children were well educated in the sciences A place which could sell its wares and be self sufficient and self sustaining A place where Islamic religion and Western technology could come together in harmony Nearly thirty years later and Sekem has gone from strength to strength In 1981 it shipped its first medicinal herbs to the USA by 2004 it oversaw a network of over 800 farms across Egypt and the Sudan producing high quality organic crops herbs fruits and vegetables Its mobile health units work with local rural populations and it has brought about real social change This is the story of Sekem the original vision the challenges and hard work and the eventual successes in Ibrahim Abouleish's own words Stunningly illustrated with colour photographs throughout *Urban Narratives: Exploring Identity, Heritage, and Sustainable Development in Cities* Mohd Fairuz Shahidan, Gasim Hayder Ahmed Salih, Alessio Cardaci, Israa Hanafi

here are shown to have created new markets and industries and driven innovations in sustainable practices even at times when most consumers and governments marginalized the entire subject The struggles of early pioneers appear to have been rewarded by the growth of environmental awareness among consumers business leaders and others in recent years but the Earth s environmental health continues to deteriorate If profits and sustainability have proved challenging to reconcile the book argues that one reason was how they were both defined

Religion and Sustainable Agriculture Todd

LeVasseur, Pramod Parajuli, Norman Wirzba, 2016-10-21 Distinct practices of eating are at the heart of many of the world's faith traditions from the Christian Eucharist to Muslim customs of fasting during Ramadan to the vegetarianism and asceticism practiced by some followers of Hinduism and Buddhism. What we eat, how we eat, and whom we eat with can express our core values and religious devotion more clearly than verbal piety. In this wide-ranging collection, eminent scholars, theologians, activists, and lay farmers illuminate how religious beliefs influence and are influenced by the values and practices of sustainable agriculture. Together, they analyze a multitude of agricultural practices for their contributions to healthy, ethical living and environmental justice. Throughout, the contributors address current critical issues including global trade agreements, indigenous rights to land and seed, and the effects of postcolonialism on farming and industry. Covering indigenous, Buddhist, Hindu, Christian, Muslim, and Jewish perspectives, this groundbreaking volume makes a significant contribution to the study of ethics and agriculture.
