world ordering power in the twentieth century As Turkey transitioned from an empire to a nation state the country's ruling elite projected westernization as a necessary and desirable force but also feared its cultural damage Turkish stock figures and figures of speech represented America both as a good model for selective westernization and as a dangerous source of degeneration At the same time U S policy makers imagined Turkey from within their own civilization templates first as the main figure of Oriental barbarism i e the terrible Turk then during the Cold War as good pupils of modernization theory As the Cold War transitioned to the War on Terror Turks rebelled against the new U S made trope of the moderate Muslim Local artifacts of westernization folk culture crossed with American cultural exports and alternate projections of modernity became tinder for both Turkish anti Americanism and resistance to state led modernization projects

The Limits of Westernization analyzes the complex local uses of the West to explain how the United States could become both the best and the worst in the Turkish political imagination G rel traces how ideas about westernization and America have influenced national history writing and policy making as well as everyday affects and identities Foregrounding shifting tropes about and from Turkey a regional power that continues to dominate American visions for the modernization of the Middle East G rel also illuminates the transnational development of powerful political tropes from the Terrible Turk to the Islamic Terrorist

religions and traditions with little outside interference **The Art of the Turkish Tale** Barbara K. Walker, 1990 In casting them into English Walker has paid particular attention to capturing the flavor and excitement of the Turkish telling while not infringing on the narrator's right to have the tale recreated as he had told it The Beauty power and appeal of the present volume for the general reading public however depends largely upon Barbara Walker's own consummate skill as a teller and re teller of tales and her commitment to conveying as much of the Turkish performance context as possible In a gesture which is perhaps symptomatic of the reasons for this volume's success Barbara Walker recognizes in the Acknowledgments section each and every tale teller by name all forty of them ranging in age from nine to ninety and coming from the many different walks of life both urban and rural to be found in twenty out of Turkey's seventy four provinces from Mugla to Kars and from Istanbul to Diyarbakir In presenting the works of all these generous bearers of tradition to an English speaking audience she has achieved her aim of opening a small window on the art of the Turkish tale in a volume which stands as a tribute to the art of book making as well Sarah Moment Atis Chair Middle East Studies Program University of Wisconsin Madison President Turkish Studies Association This will stand as a fine quintessential contribution One hears the whispers of the original voices in these versions all of which are artful recast in colloquial rhythms and couched in a style that conveys the substance the shape the spirit and the sumptuousness or the simplicity of the tale Talat Sait Halman Turkey's former Minister of Culture then Ambassador for Cultural Affairs now Professor of Near Eastern Languages and Literatures New York University
