## **On What Date Does Walter Sisulu University Open:**

**Determinants and Impact of Early Vascular Aging in Children and Adolescents** Ruan Kruger,Rachel Climie,Mieczyslaw Litwin,2022-10-26 Effective Strategies To Develop Rural Health Workforce In Low and Middle-Income Countries (LMICs) Belinda Gabrielle O'Sullivan,Pratyush Kumar,Ian Couper,Matthew Richard McGrail,2021-07-29

Proceedings of the 10th Focus Conference (TFC 2023) Manyane Makua,Mariam Akinlolu,Mashango Sithole,Phiwayinkosi Gumede,Cebo Nyondo,Ntombikhona Khuzwayo,Mandlenkosi Mhlongo,2023-11-03 This is an open access book The 2023 Focus Conference will focus on Goal Four Quality Education of the United Nations UN Sustainable Development Goals SGD Goal Four is seized with providing equal access for all women and men to affordable and quality technical vocational and tertiary education including university Quality education in this context means the ability to function provide and derive value in society The theme of the conference is therefore coined as The Role of Higher Education in the Attainment of Sustainable Quality Education Through this theme the conference will provide a space for participants to share practical knowledge experiences and possible solutions to the myriad of problems that confront the higher education sector Universities are often thought of as ivory towers far removed from the realities that confront global societies To compound this higher education is increasingly being questioned for its relevance in providing practical and innovative solutions to existing societal problems Such questions often navigate around the relevance of the academic programmes being offered curriculum the capacity of staff employability of graduates and generally the ability of these institutions to understand why they exist Indeed higher education s role in creating a sustainable future will presumably take on greater importance as the world continues to become increasingly globalised and interdependent Sustainable Development and Planning VII Ö. Özçevik,C.A. Brebbia,S.M. Şener,2015-05-19 This book contains the proceedings of the seventh in a series of biennial conferences on the topic of sustainable regional development that began in 2003 Organised by the Wessex Institute the conference series provides a common forum for all scientists specialising in the range of subjects included within sustainable development and planning In order to ensure that planning and development can meet our present needs without compromising future generations planners environmentalists architects engineers policy makers and economists must work together The use of modern technologies in planning gives us new potential to monitor and prevent environmental degradation In recent years in many countries an increase in spatial problems has led to planning crises Planning problems are often associated with uneven development deterioration of the quality of urban life and destruction of the environment The increasing urbanisation of the world coupled with the global issues of environmental pollution resource shortage and economic restructuring demand that we ensure a decent quality of life for our cities Other environments such as rural areas forests coastal regions and mountains face their own problems that urgently require solutions in order to avoid irreversible damage Effective strategies for management should consider planning and regional development two closely related

disciplines and emphasise the demand to handle these matters in an integrated way The papers in the book cover such topics as Regional Planning City Planning Sustainability and the Built Environment Cultural Heritage Environmental Management Environmental Policies and Planning Sustainable Tourism Resources Management Social and Political Issues Rural Developments Sustainable Solutions in Emerging Countries Transportation Energy Resources Environmental Economics Sustainable Assessment Sustainable Development Indicators Sustainability Modelling Governance Resilience Community Planning Planning for Equality Quality of Life      *Medical Education in Psychiatry* Doron Amsalem, Andres Martin, Robbert Duvivier, 2021-12-02      The African Perspective of Sexual Orientation and Gender Identity in Higher Education Mfundo Mandla Masuku, Mbongeni Shadrack Sithole, 2025-05-23 This book uses a deconstruction context to highlight the challenges faced by the LGBTQIA communities in African Higher Education The discursive approach adopted in the book is critical in enabling the editors and their authors space to articulate the subtle problematic and context sensitive issues that drive exclusionary and unequal practices that students face in campus life The book goes on to present an advanced argument for integrating African epistemologies such as Ubuntu with social justice frameworks to foster cultural competence and diversity in higher education      Corrupted Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions Why do some universities seem to be in a constant state of turmoil and dysfunction Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic namely graduation certificates for sale assets of these institutions Jansen argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly      *Anchored in Place* Bank, Leslie, Cloete, Nico, 2018-11-05 Tensions in South African universities have traditionally centred around equity particularly access and affordability historical legacies such as apartheid and colonialism and the shape and structure of the higher education system What has not received

sufficient attention is the contribution of the university to place based development This volume is the first in South Africa to engage seriously with the place based developmental role of universities In the international literature and policy there has been an increasing integration of the university with place based development especially in cities This volume weighs in on the debate by drawing attention to the place based roles and agency of South African universities in their local towns and cities It acknowledges that universities were given specific development roles in regions homelands and towns under apartheid and comments on why sub national place based development has not been a key theme in post apartheid higher education planning Given the developmental crisis in the country universities could be expected to play a more constructive and meaningful role in the development of their own precincts cities and regions But what should that role be Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework What plans and programmes are in place and what is needed to expand the development agency of universities at the local level Who and what might be involved Where should the focus lie and who might benefit most and why Is there a need perhaps to approach the challenges of college towns secondary cities and metropolitan centers differently This book poses some of these questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges ICEL2104-Proceedings of the 9th

Innovation in Mathematics Education Njurai, Evelyn,Uworwabayeho, Alphonse,2024-07-18 In the face of emerging challenges in the field of mathematics education educators and researchers find themselves navigating the complexities of globalization and innovations As classrooms become more diverse and educational landscapes evolve there is a need for an understanding of the multifaceted impacts of these forces The very essence of mathematics education is shifting influenced by global trends cultural dynamics and technological advancements It is within this context that Impacts of Globalization and Innovation in Mathematics Education offers a profound exploration of the challenges and opportunities that arise in this era One of the central predicaments faced by educators and scholars is the dynamic nature of globalization and innovation which introduces unprecedented complexities in mathematics education While cultural diversity in classrooms brings valuable

perspectives it also poses challenges in developing inclusive and effective teaching strategies The integration of innovative practices faces resistance due to cultural conflicts and identity issues Additionally the fast paced changes in global trends and the dissemination of information through media influence how mathematics education is perceived and practiced This creates a demand for a thorough examination of the relationship between globalization innovation and the field of mathematics education

**Commonwealth Universities Yearbook** ,2007 Novel Aspects on Cysticercosis and Neurocysticercosis Humberto Foyaca Sibat,2013-01-30 This book includes selected peer reviewed chapters which cover novel aspects of cysticercosis and neurocysticercosis written by well known international researchers representing the most relevant Working Group for Cysticercosis of Mexico Peru Ecuador most of the Eastern and Southern Africa countries and Europe plus other contributions from Canada and United States of America Unfortunately our colleagues from Asia could not participate in this project for several reasons but we hereby acknowledge their contribution to the scientific level reached by the international scientific community Apart from the classic issue that cannot be missing in any book about cysticercosis neurocysticercosis we introduced a new hypotheses and novel aspects on historical background clinical descriptions investigations and treatment modalities related to this zoonotic parasitic disease as a leading cause of epilepsy in developing countries We are looking forward with confidence and pride in the vital role that this book will play for a new vision and mission

Enhancing Research for Academicians in Higher Education Mdikana, Andile Alfred,2024-11-29 Academics and postgraduate students in higher education often face challenges navigating the complex research landscape from formulating a sound rationale and problem statement to developing a robust theoretical framework and publishing their work effectively Many need help publishing their research and making informed decisions and the current lack of assistance hinders their academic progress and contribution to knowledge production Emerging academics often need more guidance in research supervision and postgraduate students may require support in writing quality research proposals and dissertations Enhancing Research for Academicians in Higher Education offers a transformative solution to these challenges providing a comprehensive guide to rethinking and reimagining research in higher education Centralizing the research discourse through the concept of Africanization offers a unique groundbreaking and timely perspective The book empowers academics and postgraduate students to develop their research profiles explore various research approaches and paradigms and understand research s philosophical and theoretical foundations

Career Coaching and Employability Skills Acquisition Otu, Mkpoinke Sunday,Sefotho, Maximus Monaheng,2025-02-04 In today s fast paced job market employability skills are essential for individuals to adapt thrive and contribute effectively in any professional setting Employers prioritize candidates with a balance of technical expertise and soft skills such as communication problem solving and teamwork which are critical for long term success Developing these skills not only enhances career prospects but also empowers individuals to navigate workplace challenges and build meaningful professional relationships By fostering these competencies society benefits from

a more adaptable and resilient workforce capable of driving innovation and growth Career Coaching and Employability Skills Acquisition examines the challenges of the modern job market and how individuals can acquire the necessary skills to excel in their chosen careers It provides practical insights and strategies on enhancing employability skills Covering topics such as career development lifelong learning and youth experience this book is an excellent resource for academicians researchers business leaders economists and more *Handbook of Research on the Global View of Open Access and Scholarly Communications* Alemneh, Daniel Gelaw, 2022-04-29

In an information and knowledge society access to information and knowledge is a basic human right making equitable and fair access to information and knowledge paramount Open Access OA plays a huge role in addressing inequities as well as broad based and inclusive scientific progress On the surface the number of publications discussing OA issues from various angles are on the rise However what is missing is a comprehensive assessment of the extent of OA implementation and a discussion of how to proceed in integrating OA issues from various perspectives The Handbook of Research on the Global View of Open Access and Scholarly Communications articulates OA concepts and issues while demystifying the state of the art knowledge domain in the areas of OA and scholarly communications from diverse perspectives as well as implications for the information and knowledge society Covering topics such as ethics copyright challenges and open access initiatives this book is a dynamic resource for publishers librarians higher education administrators policymakers students and educators of higher education researchers and academicians
