Piercy,2012-10-02 *Tales from the Marketplace* Stories of Revolution Reinvention and Renewal is a highly innovative approach  
to building an understanding of the realities of market led strategic change in companies It provides an engaging honest and  
effective understanding of real market strategy in major organizations by focussing on the forces behind value driven  
strategy Nigel Piercy provides new and incisive insights into strategy and marketing through business stories that are  
contemporary and provocative These new stories depict how major organizations have experienced revolution in their  
traditional markets created by new types of competitors with new business models The search for superior value is  
overtaking traditional brand and relationship strategies The challenge to companies is reinvention and renewal and the  
alternative is obsolescence and decline After all did the major banks really expect to be competing with supermarkets car  
companies Virgin and internet based companies to provide retail bank services The book is based on the author s view that  
Business is exciting turbulent and unpredictable the stories we read and study should be too From Dell Computers and  
easyJet to Amazon com and Skoda Cars it is the most innovative companies that have most to teach us about reinvention and  
new business models The inflexible analytical frameworks of the past no longer apply stories of reinvention and renewal show  
the creative strategies developed by companies to cope with threats and exploit opportunities around them *Tales from the  
Marketplace* is essential timely and designed to be highly readable for managers It also provides an innovative approach for  
undergraduate and MBA level teachers and students and for participants on executive programmes in marketing and  
strategic management      *Česká národní bibliografie* ,1999      *Cross-Border Investing* Julia Djarova,2004-03-31 *Cross  
Border Investing* The Case of Central and Eastern Europe offers a view that reflects two main hypotheses You cannot  
understand foreign direct investment FDI trends and developments unless you understand the company s motives to invest  
You cannot understand a company s cross border investment decision making unless you understand what the investment  
area offers This is the reason why this text builds up a relationship between the world of companies decision makers and that  
of the policy makers in the public sector It does so by linking the business processes to the factors that together constitute  
the location profile of a country or a region Based on more than 15 years of practical experience as well as research in the  
field of FDI Dr Julia Djarova offers a Cross Border Investment Model to describe the logic behind the decision making process  
concerning foreign investments made by companies The model is illustrated by a number of case studies of multinationals
