Phillip,1990-10-01 How many of us have felt like Phillip Z He has a staunch belief in the Twelve Steps yet struggles with the concept of a Higher Power In A Skeptic s Guide to the 12 Steps the author investigates each of the Twelve Steps to gain a deeper understanding of a higher power He examines what may seem like unsettling concepts to us including surrendering one s will and life to God and he encourages us to understand the spiritual journey of recovery despite our skepticism *A Skeptic's Guide to Belief* Ken Crispin,2019-04-04 What would happen if you faced your doubts set aside your preconceptions and decided to follow the path of truth wherever it might lead Most people whether believers or atheists doggedly defend what they have always believed Many see this as an expression of faith Yet there is something almost inexpressibly sad about the plight of people living out their lives in reliance upon beliefs they dare

not question Perhaps that is why many of us come to a point at which we feel compelled to pursue the truth no matter what the implications But even if we found the courage to embark upon such a journey could we really find a path through the scientific philosophical experiential and theological thickets that surround the great questions of life And if we did would we know the truth and be set free Would we be forced to face a long feared despair Or would we find ourselves still staring impotently at an enigmatic universe This is a book unlike any other It addresses these questions with unflinching honesty drawing evidence from a diversity of scientific fields and subjecting the competing arguments to rigorous skeptical analysis
