

RADIO CONTROLLED ANALOG CLOCK

INSTRUCTION MANUAL

Model 28800

Quick set up instructions

Welcome to the world of atomic timekeeping technology. We hope you will enjoy the convenience of never having to set your clock again and the confidence of knowing exactly what time it is.

- Insert 1 **new** AA, LR6 1.5 volt ALKALINE battery in the analog clock battery compartment according to the polarity marked on the case, then 1 **new** battery AA, LR6 1.5 V into the digital clock.
- Once the battery is installed, the clock will begin searching for a signal. For the initial setting, it is recommended to stand the clock in an upright position near a window. Within five minutes the clock will either receive the WWVB signal and set itself to the exact time (for the default Pacific Time Zone), or it will determine that the signal is not receivable at its current location and time of day. The clock will fast-forward the hands to the 4, 8, or 12 o'clock position immediately and search for WWVB at specific time until a signal is received. If the time is manually set, the clock will continue to periodically search for a signal and automatically reset the hands when the signal is received.
- Press time zone button to select a time zone after the clock received the WWVB signal. If you are in the Pacific Time Zone- you are ready to hang your clock.
If you are not in the Pacific Time Zone, select your time zone by press and holding for 5 second, one of the four time zone buttons PT-Pacific Time, MT-Mountain Time, CT-Central Time, ET-Eastern Time. If multiple buttons are pressed, the clock will set to the time zone selected last. If no time zone is selected the clock will default to Pacific Time. If you live in an area that does not recognize DST (Arizona) you must press the (unmarked) DST button for one second to deactivate your clock's DST program.
For time zones outside of PT, MT, CT or ET you must manually set the time using the Manual Time set button on the back of the movement. (See instructions below). **Please Note:** WWVB time will over ride a manual setting.
