Inquiries of School Reform Cheryl J. Craig, 2003-05-01 This book culminates five years of extensive field based inquiry with teachers and principals in four reforming school contexts It arises from living alongside teachers and principals entering into their realities engaging them in conversations seeing school life through their eyes and employing the words and images they use to wrap around their experiences It involved thinking narratively about schools as sites of high drama within which teachers and principals negotiate meaning as knowledgeable and knowing human beings It gave primacy to everyday events taking shape on school landscapes It meant creating spaces and devoting enormous amounts of time to observing and

listening hard to what teachers and principals say and do when reform initiatives become personally lived in context from their points of view **Implementing the Primary Curriculum** Kate Ashcroft, David Palacio, 2003-10-04 First published in 2004 Routledge is an imprint of Taylor Francis an informa company
