The East India Company and Religion, 1698-1858 Penelope Carson, 2012 An overview of the East India Company's policy towards religion throughout its period of rule in India This wide ranging book charts how the East India Company grappled with religious issues in its multi faith empire putting them into the context of pressures exerted both in Britain and on the subcontinent from the Company's early mercantile beginnings to the bloody end of its rule in 1858 Religion was at the heart of the East India Company's relationship with India but the course of its religious policy has rarely been examined in any systematic way The free exercise of religion the policy the Company adopted in its early days in order to safeguard the security of its possessions was challenged by Evangelicals in the late eighteenth century They demanded that the Company should grant free access to Christians of all Protestant denominations and an end to barbaric Indian religious practices This gave rise to an unprecedented petitioning movement in 1813 comparable in strength to that for the abolition of the slave trade the following year It was an important milestone in British domestic politics The final years of the Company's rule were dominated by its attempts to withstand Evangelical demands in the face of growing hostility from Indians In the end it pleased no one and its rule came to a gory and ignominious end In this compelling account Penny Carson examines the twists and turns of the East India Company's policy on religious issues The story of how the Company dealt with the fact that it was a Christian Company trying to be equitable to the different faiths it found in India has resonances for Britain today as it attempts to accommodate the religions of all its peoples within the Christian heritage and structure of the state Penelope Carson is an independent scholar with a doctorate

from King's College London The Past Before Us Romila Thapar, 2013-11-04 The claim that India uniquely lacks historical writing distracts us from a more pertinent question how to recognize the historical sense of societies whose past is recorded in ways very different from European conventions Romila Thapar distinguished scholar of ancient India provides a panoramic survey of historical traditions in North India **The Routledge Handbook of Hindu Temples** Himanshu Prabha Ray, Salila Kulshreshtha, Uthara Suvrathan, 2022-10-13 This handbook is a comprehensive study of the archaeology social history and the cultural landscape of the Hindu temple Perhaps the most recognizable of the material forms of Hinduism temples are lived dynamic spaces They are significant sites for the creation of cultural heritage both in the past and in the present Drawing on historiographical surveys and in depth case studies the volume centres the material form of the Hindu temple as an entry point to study its many adaptations and transformations from the early centuries CE to the 20th century It highlights the vibrancy and dynamism of the shrine in different locales and studies the active participation of the community for its establishment maintenance and survival The illustrated handbook takes a unique approach by focusing on the social base of the temple rather than its aesthetics or chronological linear development It fills a significant gap in the study of Hinduism and will be an indispensable resource for scholars of archaeology Hinduism Indian history religious studies museum studies South Asian history and Southeast Asian history Chapters 1 4 and 5 of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com They have been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Disciplines of Modernity** Saurabh Dube, 2022-10-14 Scrupulously based in anthropology and history and drawing on social theory and critical thought this book revisits the disciplines archives and subjects of modernity There are at least three interleaving emphases here To begin with the work rethinks institutionalized formations of anthropology and history together with archives at large as themselves intimating disciplines of modernity Understood in the widest senses of the terms these disciplines are constitutively contradictory Moreover the study interrupts familiar projections of modern subjects as molded a priori by a disenchanted calculus of interest and reason It tracks instead the affective embodied and immanent attributes of our varied worlds as formative of subjects of modernity sown into their substance and spirit Finally running through the book is a querying of entitlement and privilege that underlie social terrains and their scholarly apprehensions articulating at once distinct elites pervasive plutocracies and modern scholasticisms Messengers of Hindu Nationalism Walter Andersen, Shridhar D. Damle, 2019 Charts the inexorable long term political objectives of the world's largest nationalist organisation and its desire to re-engineer Indian society **Islam in South Asia in Practice** Barbara D. Brainwashed Republic: India's Controlled Systemic Deracination Neeraj Atri, Munieshwar A Saagar, 2017-07-13 The education system of India has been thoroughly compromised It is being systematically used to create a historical grand narrative which is ethically and factually incorrect Sophisticated propaganda techniques are employed to create this artifice This book is an effort to highlight this academic fraud It is a result of research spread over more than 6 years Facts are the guiding lights for the books and not any ideology For further information refer to our website www.brainwashedrepublic.com

The Upside Down Tree Richard D. Connerney, 2009 India's future will be determined not only by economic development but also by a dynamic traditional culture that continues to develop along its own lines sometimes in concert and sometimes in conflict with material enrichment India develops not as one writer has suggested in spite of the gods Rather the seed for the creation and the fuel for the sustenance of India's economic boom lay in its traditions and I will argue the animating spirit of its future lies there as well I have neither the expertise nor the access to operate as a political correspondent nor the desire to posture as a political pundit During eighteen years of research however I have seen what I perceived as a pervasive misrepresentation of recent developments in Indian politics More specifically a number of recent books consistently paint the Hindu right wing in India as essentially fascist or theocratic My observations show that these claims are untenable and misrepresent a positive development in the history of Indian democracy To think clearly about the changes in today's India we require a new model the bi-directional banyan tree a symbol borrowed ironically from ancient Sanskrit verses Pindar claimed Custom is King of all and this serves as a succinct expression of the central thesis of this book Publisher's website

Urbanisation, Citizenship and Conflict in India Tommaso Bobbio, 2015-06-19 Urbanisation is rapidly changing the geographic and social landscape of India and indeed Asia as a whole Issues of collective violence urban poverty and discrimination become crucial factors in the redefinition of citizenship not only in legal terms but also in a cultural and socio-economic dimension While Indian cities are becoming the centres of a culture of exclusion against vulnerable social groups a long term perspective is essential to understand the patterns that shaped the space politics economy and culture of

contemporary metropolises This book takes a critical longer term view of India's economic transition The idea that urban growth goes hand in hand with the modernisation of the country does not account for the fact that increasingly higher portions of the urban population are comprised of lower income groups casual labourers and slum dwellers Using the case study of Ahmedabad this book investigates the history of city and of its people over the twentieth century It analyses the contrasting relationship between urban authorities and the inhabitants of Ahmedabad and examines instances of antagonism and negotiation amongst people groups and between the people and the public authority that have continuously shaped transformed and redefined life in the city This book offers an important tool for understanding the bigger context of the conflicts the social and cultural issues that accompanied the broader process of urbanisation in contemporary India It will be of interest to scholars of Urban History studies of collective violence and South Asian Studies **The Book Review**, 2004
