Rainier P Soriano Book:

Fundamentals of Geriatric Medicine Rainier P. Soriano, 2007-05-26 Prior to the evolution of modern medicine with its superabundance of diagnostic and therapeutic medical technology and the rise of the litigious society the value of clinical skills was evident in both history taking and the physical examination Even today physicians can make a correct diagnosis solely by utilizing their clinical skills in about 90% of patient encounters Furthermore in the past physicians understood their role as a psychologist and were more apt to be familiar with the social context of their patients House calls were common The doctor was also a placebo who at his best inspired hope and probably sped recovery Geriatricians use both clinical skills and take advantage of modern technology sparingly for they know they are dealing with the most challenging and frail of patients older patients who so often present with multiple complex interacting behavioral social and physical problems In contrast to medicine for young people working with the older patient is much more demanding Furthermore the complex issue of societal attitudes toward old people can come into play especially the physician's need to deal with natural fears of aging dependency depression dementia and death Ageism is the enemy of effective medical treatment At its best geriatrics exemplifies ways that medical care for all ages can become more humane problem oriented and holistic
