

Adam Ferguson

Saggio sulla storia della società civile

a cura di Alessandra Attanasio
Prefazione di Giuseppe Bedeschi

La presente traduzione è condotta sul testo dell'edizione dell'Essay on the Nature and Conduct of the Passions and Affections curata da Duncan Forbes (Edinburgh University Press, 1996). Si riporta in nota una scelta delle varianti e aggiunte più significative tra quelle apportate al testo dallo stesso Ferguson nelle varie edizioni apparse durante la sua vita. «Il quadro tracciato da Ferguson presenta una tale ricchezza di motivi (sociologici e psicologici, economici e politici, nonché culturali in senso lato) da ispirare ancor oggi utili riflessioni sulla storia della nostra società e della nostra cultura».

Saggio Sulla Storia Della Società Civile:

Saggio sulla storia della società civile Adam Ferguson, 1999 *Per la società civile. La centralità del «Principio sociale» nelle società avanzate* M. Magatti, 1997 *The Grammar of Social Relations* Louis Schneider, This collection of the writings of Louis Schneider an exceptionally gifted sociologist of religion the history of ideas provides a sensitive but rigorous view of the place of ideas in social life Divided according to the principal areas in which Schneider conducted research history of social thought principles of social theory sociology of religion essays on evolution styles of research and moral choice in human relations His knowledge of systems of thought dialectical functional and phenomenological was peerless The unifying theme in his work is the place of cultural formations in social structures as a result his writings are alive with persons no less than systems

Società civile e democrazia radicale Lorenzo Cini, 2012 This work asks questions on the relationship between innovative collective actors such as the new social movements and the political institutions of representative democracy starting from an underlying hypothesis the idea that civil society is the main source of political legitimation of liberal democracy More precisely what this monograph reflects on is the capacity of the social movements to concretely test alternative forms of democracy The aim of the contemporary movements is to augment the fundamental values of the democratic revolution namely the principles of freedom and equality They constantly lead to conflict and social antagonism indeed new conflicts and new antagonisms arise every time that the movements implement radical experiences of democracy in the multiple and different spheres of social life Only by accepting and setting value by these alternative democratic practices and experiences and this is the author of this work's thesis may democratic ideals be revived in contemporary society

The Unexpected in Action Antonio Ciozza, 2023-03-21 The book is a true knowledge enhancing project dealing with the forms of rationality at work in social life which are so many varied and complex Published already in Spanish and Italian it analyses the role played by rationality through the lens of social theories in order to propose a problematic interpretation of human action Since there is nothing more practical than a good theory when seeking to understand our society the book reflects on the theoretical approaches that provide useful categories by means of which to understand and interpret individual organizational and institutional action It proposes an analysis of a wide variety of classics by eminent European and Anglo American thinkers such as Dahrendorf Mannheim Marx Popper Weber Habermas Luhmann Machiavelli Pareto Ardig Cesareo Parsons Schatz Alexander Bauman Beck Sennett Antiseri Boudon Sen Simon to shed light on the relationship between rationality difficulties in thinking and extra rationality Finally the reasons for unexpected action are investigated as well as the strategic role played by ethics rationality and skills in postmodern societies on the basis of the contributions of Nussbaum and Piketty

Experience Roberta Iannone,2016-08-17 Why should we wonder about man and the human sense What are the questions and answers we are seeking Why should we read the work of Werner Sombart Or rather why should we re read this Sombart This book tracks the human sense in order to rediscover this compass against the current crisis of the humanistic conception of society This crisis is manifest in a repositioning of society which is no longer human by definition in contrast to the past when the term human society was a tautology and redundant As such the human element of society must be rediscovered This book revitalizes the scientific sense of the human which is almost anesthetized often frustrated and belittled sometimes confused and mistaken with something else frequently misunderstood and made unrecognizable but precisely for this reason which is increasingly essential today Saggi politici dei principj, progressi e decadenza delle società di Francesco Mario Pagano ,1831
