

3. Each candidate should be supplied with the following, where 'n' is the candidate's serial number.
(a) 150 cm³ of a solution of HNO₃ in a corked flask or bottle, labelled 'Dn'. These should all be the same containing 5.0 cm³ of concentrated HNO₃ per dm³ of solution.

(b) 150 cm³ of Na₂CO₃ solution in a corked flask or bottle labelled 'En'. These should all be the same containing 3.5 g of the salt per dm³ of solution.

(c) One spatulaful of ammonium trioxocarbonate (IV) in a specimen bottle labelled 'Fn'. This must be the same for all candidates.

4. In all cases, more materials may be issued if necessary.

5. The actual concentrations of the solutions and the mass of the solid should be recorded in the Supervisor's Report Form. These concentrations are to be used in the calculations.

6. It should be ensured that the materials are distributed in the following order:

School Science Practical Work in Africa Umesh Ramnarain, 2020-06-01 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry based learning which signals a definite paradigm shift from the traditional teacher dominated to a learner centered approach. The book provides empirical research on approaches to practical work contextual factors in the enactment of practical work and professional development in teaching practical work. This book will be of great interest to academics, researchers and post graduate students in the fields of science education and educational policy. *Questions in chemistry and natural philosophy, given at the matriculation examination, from 1864 to June 1873. Handbook of Research on the Role of Human Factors in IT Project Management Misra, Sanjay, Adewumi, Adewole, 2019-09-27 The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive and organizational domain of computing yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers and students seeking current research on the dynamics of human influence in technological projects. *Artificial Intelligence in Education* Andrew M.
