spaces and where they have been used as a tourism resource have generated significant income for local communities. However, not all use of rainforests as a tourism resource has been sustainable. This book argues that sustainability must be the foundation on which tourism use of this complex but ultimately fragile ecosystem must be built upon. It provides a multidisciplinary perspective incorporating rainforest science, management, and tourism issues. The book is organized into four sections commencing with Rainforest Ecology and Management, followed by People and Rainforests, Opportunities for Rainforest Tourism Development, and finally Threats to Rainforests. Each major rainforest region is covered, including the Amazon, Central America, Africa, Australia, and South East Asia, in the context of a specific issue. For example, rainforests in Papua New Guinea are examined in the context of community-based ecotourism development, while the rainforests in Borneo are discussed in an examination of wildlife issues. Other issues covered in this manner include governance, empowerment, issues for rainforest peoples, and climate change.

Religion and Tourism Michael Stausberg, 2012-11-12. This book explores the dynamic interaction between religion and tourism in the modern world. It considers questions such as: do travellers leave their religion at home when they are touring, and what happens if not? What are the relationships between tourism and pilgrimage? What happens to religious performances, places, and festivals that function as tourism attractions? Other chapters examine religious theme parks, wellness, and spa tourism, the roles played by tourist guides, guidebooks, and religious souvenirs, and the role of tourism as a major arena of religious encounters in the contemporary world. Surveying the growing body of work in the field, Michael Stausberg argues that tourism should be a major focus of research within religious studies.
