Intellectual Property Law and Policy Volume 12 Hugh Hansen, 2013-05-22 This is the 17th Annual volume in the series collecting the presentations and discussion from the Annual Fordham IP Conference. The contributions by leading world experts analyse the most pressing issues in copyright, trademark, and patent law as seen from the perspectives of the USA, the EU, Asia, and WIPO. This volume, in common with its predecessors, makes a valuable and lasting contribution to the discourse in IP law as well as trade and competition law. The contents, while always informative, are also critical and questioning of new developments and policy concerns. Praise for the series: This must be one of the most enjoyable and thought-provoking conferences in the IP field. The high quality of the speakers is matched by the intense audience-led debates and challenges.
