Relativity in Curved Spacetime Eric Baird, 2007 Relativity theory has become one of the icons of Twentieth Century science It s reckoned to be a difficult subject taught as a layered series of increasingly difficult mathematics and increasingly abstract concepts We re told that relativity theory is supposed to be this complicated and counter intuitive But how much of this historical complexity is really necessary Can we bypass the interpretations and paradoxes and pseudoparadoxes of Einstein s special theory and jump directly to a deeper and more intuitive description of reality What if curvature is a fundamental part of physics and a final theory of relativity shouldn t reduce to Einstein s flat 1905 theory on principle Relativity takes us on a whistlestop tour of Twentieth Century physics from black holes quantum mechanics wormholes and the Big Bang to the workings of the human mind and asks what would physics look like without special relativity 394 printed pages 234156 mm 200 figures and illustrations includes bibliography and index www.relativitybook.com

From Puzzles to Principles? May Sim, 1999-01-01 Scholars of classical philosophy have long disputed whether Aristotle was a dialectical thinker Most agree that Aristotle contrasts dialectical reasoning with demonstrative reasoning where the former reasons from generally accepted opinions and the latter reasons from the true and primary Starting with a grasp on truth demonstration never relinquishes it Starting with opinion how could dialectical reasoning ever reach truth much less the truth about first principles Is dialectic then an exercise that reiterates the prejudices of one s times and at best allows one to persuade others by appealing to these prejudices or is it the royal road to first principles and philosophical wisdom In *From Puzzles to Principles* May Sim gathers experts to argue both these positions and offer a variety of interpretive possibilities The contributors thoughtful reflections on the nature and limits of dialectic should play a crucial role in Aristotelian scholarship
