*Middle Eastern Minorities* Ibrahim

Zabad,2017-03-27 This is a comprehensive survey of minorities in the Middle East with a special focus on the post Arab Spring era Minority communities in the Middle East are the most susceptible to the turbulence engulfing the region the majority may suffer physical violence and socioeconomic loss but minorities could potentially vanish Instead of ushering in democracy and inclusive politics the revolutionary upheavals have prompted chaos and fear and reinforced the resurgence of Islamic fundamentalism throughout the region Zabad uses historical sources as well as first hand interviews to vividly describe the current status of minorities in the Middle East explaining attitudes towards the revolutionary upheavals as well as the various strategies they used to avail themselves of the opportunities presented and to confront the risks posed The question of ethnic sectarian and religious minorities is situated in the context of the broader history of the region in order to explain the underlying institutional and ideological factors that caused their predicament and problematized their relationship with the majority The book provides a rich trove of information and insights generated from ten case studies that covered the Shia in Saudi Arabia Bahrain Lebanon and Egypt the Druze the Alawites Christians and Kurds in Syria the Copts in Egypt and the Zaydis in Yemen *The Clash of Empires and the Rise of Kurdish Proto-Nationalism, 1905-1926* Mehrdad Kia,2023-11-19 This book focuses on the rise of Kurdish nationalism in northwestern Iran in the context of the emergence of the Kurdish leader Ismail Agha Simko who organized a movement to establish a Kurdish state between 1918 and 1922 The rise of Simko is analyzed in the historical framework of the collapse of the Russian and Ottoman empires as well as the disappearance of Iranian governmental authority in various provinces of the country during and after the end of the First World War The book also investigates the impact of Iranian Turkish and Assyrian nationalisms on Simko and his movement Drawing upon original documents the author provides an in depth analysis of the political and socio economic causes for the rise of proto Kurdish nationalism in northwestern Iran during and after the Great War **The Kurdish Question Revisited** Gareth R. V. Stansfield, Mohammed Shareef,2017 The Kurds once marginal in the study of the Middle East and secondary in its international relations have moved to centre stage in recent years In Turkey where the Kurdish question is an issue of national significance and in Iraq where the gains made by the Kurdistan Regional Government have allowed it to impose its authority moves are afoot to solve the Kurdish Question once and for all The picture is less positive in Syria where the Kurds have borne the brunt of the Islamic State's onslaught and in Iran where they struggle to express their cultural distinctiveness and suffer disproportionately at the hands of the Islamic Republic's security apparatus Yet the situations in both countries remain in flux affected by developments in Iraq and Turkey in a manner that suggests we may have to revise the notion of the Kurds being forever divided by the boundaries of the Middle East's and subsumed into the state projects of other nations The contributors to *The Kurdish Question Revisited* offer insights into how this once seemingly intractable immutable phenomenon is being transformed amid the new political realities of the Middle East Publisher's description *Conflict in the Modern Middle East* Jonathan K. **Policing Iraq**  
Jesse Wozniak, 2021-03-09 Policing Iraq chronicles the efforts of the Kurdistan Regional Government of Iraq to rebuild their police force and criminal justice system in the wake of the US invasion Jesse S G Wozniak conducted ethnographic research during multiple stays in Iraqi Kurdistan observing such signpost moments as the Arab Spring the official withdrawal of coalition forces the rise of the Islamic State and the return of US forces By investigating the day to day reality of reconstructing a police force during active hostilities Wozniak demonstrates how police are integral to the modern state's ability to effectively rule and how the failure to recognize this directly contributed to the destabilization of Iraq and the rise of the Islamic State The reconstruction process ignored established practices and scientific knowledge instead opting to create a facade of legitimacy masking a police force characterized by low pay poor recruits and a training regimen wholly unsuited to a constitutional democracy Ultimately Wozniak argues the United States never intended to build a democratic state but rather to develop a dependent client to serve its neoimperial interests
