Religions Of The World 12th Edition:

Religions of the World J. Gordon Melton, Martin Baumann, 2010-09-21 This masterful six volume encyclopedia provides comprehensive global coverage of religion emphasizing larger religious communities without neglecting the world's smaller religious outposts. Religions of the World Second Edition: A Comprehensive Encyclopedia of Beliefs and Practices is an extraordinary work bringing together the scholarship of some 225 experts from around the globe. The encyclopedia's six volumes offer entries on every country of the world with particular emphasis on the larger nations as well as Indonesia and the Latin American countries that are traditionally given little attention in English language reference works. Entries include profiles on religion in the world's smallest countries, the Vatican and San Marino; profiles on religion in recently established or disputed countries, Kosovo and Nagorno Karabakh; as well as profiles on religion in some of the world's most remote places, Antarctica and Easter Island. Religions of the World is unique in that it is based in religion on the ground, tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world, its major geographical sites and its major celebrations. Unlike other works, the encyclopedia also covers the world of religious unbelief as expressed in atheism, humanism, and other traditions.

Marking the "Invisible" Andrea M. Hawkman, Sarah B. Shear, 2020-04-01 Substantial research has been put forth calling for the field of social studies education to engage in work dealing with the influence of race and racism within education and society. Branch 2003, Chandler 2015, Chandler Husband 2010, King Ladson Billings 2003, Ooka Pang Rivera Ladson Billings 2003, Woyshner Bohan 2012. In order to challenge the presence of racism within social studies research, must attend to the control that whiteness and white supremacy maintain within the field. This edited volume builds from these previous works to take on whiteness and white supremacy directly in social studies education. In Marking the Invisible, editors assemble original contributions from scholars working to expose whiteness and disrupt white supremacy in the field of social studies education. We argue for an articulation of whiteness within the field of social studies education in pursuit of directly challenging its influences on teaching, learning, and research. Across 27 chapters, authors call out the strategies deployed by white supremacy and acknowledge the depths by which it is used to control, manipulate, confine, and define identities, communities, citizenships, and historical narratives. This edited volume promotes the reshaping of social studies education to support the histories, experiences, and lives of Students and Teachers of Color, challenge settler colonialism, and color evasiveness, develop racial literacy, and promote justice-oriented teaching and learning. Praise for Marking the Invisible: As the theorization of race and racism continues to gain traction in social studies education, this volume offers a much-needed foundational grounding for the field. From the foreword to the epilogue, Marking the Invisible foregrounds conversations of whiteness in notions of supremacy, dominance, and rage. The chapters offer an opportunity for social studies educators to position critical theories of race, such as critical race theory, intersectionality, and settler colonialism at the forefront of critical examinations of whiteness. Any social studies educator

researcher concerned with the theorization or teaching of race should engage with this text in their work Christopher L Busey University of Florida *The World's Religions* Arvind Sharma,2010-10-01 This wide ranging reader combines some of the best and most valuable contemporary perspectives from leading and significant writers teachers and thinkers who together address critical challenges and opportunities for the world s religions in a post 9 11 world Edited by Arvind Sharma and organized by topic the essays in this reader consider broad questions such as What influence does religion have on contemporary life The thematic arrangement of topics includes diverse religious perspectives on war terror peace human rights pluralism diversity gender spirituality the interreligious dialogue international diplomacy and globalization
