The Many Facets of Storytelling: Global Reflections on Narrative Complexity Melanie Rohse, Jennifer Jean Infanti, Nina Sabnani, Mahesh Nivargi, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2013. *The Many Facets of Storytelling: Global Reflections on Narrative Complexity* explores a range of issues around narratives and their uses in various contexts and aspects of life. The premise for this volume is that human beings are storytelling creatures and stories or narratives are part of our daily lives and have been for centuries. From this starting point the authors in this volume offer their explorations, reflections and findings from research and practice across disciplines and continents. Certain functions of stories are uncovered: education, social change and identity formation, for example. Some specific uses of narratives are investigated such as in research methodology and representations in the media. Finally, other narratives are offered for themselves as performances and autobiographical reflections. The chapters in this volume illustrate the many meanings of storytelling and thus account for the layers of complexity that are inevitable when we discuss narratives.
