Worlds Before Adam Martin J. S. Rudwick,2010-04-05 In the late eighteenth and early nineteenth centuries scientists reconstructed the immensely long history of the earth and the relatively recent arrival of human life The geologists of the period many of whom were devout believers agreed about this vast timescale But despite this apparent harmony between geology and Genesis these scientists still debated a great many questions Had the earth cooled from its origin as a fiery ball in space or had it always been the same kind of place as it is now Was prehuman life marked by mass extinctions or had fauna and flora changed slowly over time The first detailed account of the reconstruction of prehuman geohistory Martin J S Rudwick's *Worlds Before Adam* picks up where his celebrated *Bursting the Limits of Time* leaves off Here Rudwick takes readers from the post Napoleonic Restoration in Europe to the early years of Britain's Victorian age chronicling the staggering discoveries geologists made during the period the unearthing of the first dinosaur fossils the glacial theory of the last ice age and the meaning of igneous rocks among others Ultimately Rudwick reveals geology to be the first of the sciences to investigate the historical dimension of nature a model that Charles Darwin used in developing his evolutionary theory Featuring an international cast of colorful characters with Georges Cuvier and Charles Lyell playing major roles and Darwin appearing as a young geologist *Worlds Before Adam* is a worthy successor to Rudwick's magisterial first volume Completing the highly readable narrative of one of the most momentous changes in human understanding of our place in the natural world *Worlds Before Adam* is a capstone to the career of one of the world's leading historians of science **The Long Eighth Century** Inge Lyse Hansen,Chris Wickham,2021-11-22 The eighth century has not been analysed as a period of economic history since the 1930s and is ripe for a comprehensive reassessment The twelve papers in this book range over the whole of Europe and the Mediterranean from Denmark to Palestine covering Francia Italy and Byzantium on the way They examine regional economies and associated political structures that is to say the whole network of production exchange and social relations in each area They offer both authoritative overviews of current work and new and original work As a whole they show how the eighth century was the first century when the post Roman world can clearly be seen to have emerged in the regional economies of each part of Europe *Kaupang in Skiringssal* Dagfinn Skre,2007-12-31 In this the first of six volumes the main results of the excavations that the University of Oslo carried out at Kaupang from 1998 to 2003

are presented A completely new picture is put forward of the port that Ottar visited in c 890 It is now clear that Kaupang was one of the four Scandinavian towns that were founded around the year 800 Kaupang is connected to the power centre of Skiringssal to the Ynglings the legendary Norwegian royal lineage and to the King of the Danes the dominant political actor in south west Scandinavia In nine of the book s 20 chapters the excavations finds analyses and results are presented Kaupang is shown to have had several of the same features revealed in Birka Hedeby and Ribe i e a compact permanent settlement divided into small plots each with a dwelling The town could have had 400 800 inhabitants Substantial traces of trade and craftwork are proof of the main areas of occupation Advanced geo and environmental archaeological analyses have played a large role in interpreting the finds In three chapters 200 years of research on Kaupang and Skiringssal are summarised while in the remaining eight chapters an endeavour is made to re establish the holistic approach to Skiringssal that dominated research during the first 100 years Documentary sources indicate that Skiringssal was an important royal seat in the 700s and 800s In this volume these sources are put together with the archaeological and toponymical sources which united show a centre of power with a clear likeness to similar places in Denmark and Sweden A hall or sal building presumably the Skirings sal itself was excavated at Huseby near Kaupang Nearby a thing site is situated by a holy lake In this the Yngling kings centre of power to which many people came to attend thing meetings and sacrificial feasts the town Kaupang was founded
