

## Important information

### Serious risk of injury

When working on the engine, for example when adjusting drive belts and the clutch, or when changing the oil, it is important not to start the engine. The engine could be damaged, but more importantly there is a serious risk of injury.

For this reason, always secure the starting device or disconnect a battery cable before working on the engine. This is especially important if the engine has a remote starter or automatic starting.

#### **WARNING!**

This warning symbol and text can be found next to those maintenance items where it is particularly important to bear in mind the risk of injury.
