which evolved in subsequent years When it was first introduced the Leyland Comet was an immediate success and soon became the market leader in the high quality medium weight lorry sector In the 30 years of production history described in these pages the Comet was only seriously challenged by its great rival the AEC Mercury In its heyday the Leyland Motors name was synonymous with top quality Their Comet range maintained and enhanced the company s reputation Many small haulage firms building a business in the post war years aspired to a Leyland lorry and felt a great sense of achievement when able to acquire one This book has been out of print for many years and has been brought back in 2016 to make this fascinating story available again to Leyland enthusiasts and those with an interest in general transport history Graham Edge is a trucking journalist and author Series Commercial Vehicles Archive Series Subject Commercial Vehicles Transportation
