Journal X ,2002 Journal of American Studies ,2005 *Harriet Beecher Stowe's Uncle Tom's Cabin* Elizabeth Ammons,2007 General for the Series The Casebooks in Criticism introduce readers to the essential criticism on landmark works of literature and film For each volume a distinguished scholar who is an authority on the text has collected the most elucidating and distinctive scholarly essays on that work and added key supporting materials Each volume includes a substantial introduction which considers the key features of the work describes its publication history and contextualizes its cultural import and contemporary reputation while also surveying the major approaches which have informed the works critical history A condensed bibliography offers suggestions for further reading The compact volumes provide a critical survey and suggest provocative ways to engage with their texts They are ideally suited to those interested in developing a deeper understanding of a works history and significance Specific for this book Most of the best criticism on Stowe s landmark novel is fairly recent Until the combined impact of the civil rights and women s movements changed the focus of the academic curriculum Uncle Tom s Cabin seldom appeared in classrooms or as the subject of published scholarship However from the mid 1970 forward the book has been widely written about and taught Today Uncle Toms Cabin is a stable important part of the nineteenth century American literature canon and has generated a rich body of new critical work This casebook collects the best of the new scholarship as well as the most influential older essays Included in this volume are letters by Harriet Beecher Stowe and articles by James Baldwin Leslie Fiedler Jane Tompkins Gillian Brown Robert Stepto and Elizabeth Ammons Osmania Journal of English Studies ,1966 **Democratic Humanism and American Literature** Harold Kaplan,2018-02-06 Democratic Humanism and American Literature illustrates the interplay between democratic assumptions and literary performance in the America s classic nineteenth century writers Emerson Thoreau Hawthorne Melville Cooper Poe Whitman Twain and James Harold Kaplan suggests that these major figures works are linked by the myths of genesis of a new political culture Challenged by the democratic ideal and committed to it they wrote prophetic books in the American liberal tradition and endowed its ethical intelligence The task of stating a new and undefined freedom was always implicit and often in the foreground of the writing of these nineteenth century giants As the author describes the situation the free man had to decide in what sense he was bound by nature or could master it in what sense he was committed to his society and could reconcile his freedom with it These classic writers devoted their work to examining this dialectic of values Kaplan sees their complex and polarized democratic consciousness as seminal in the imaginative tradition they generated What is unique in that tradition of values is the rivalry of criticism with affirmations of

faith The highly original ethical trait involved here is based on the capacity of a political society to use its negations against itself and survive The author suggests that in our own time moral judgments are more likely to be the province of activist politics than literature His new introduction relates the theme of the book to cultural and political developments in the American experience of modernity and adds a discussion of Wallace Stevens and William Carlos Williams to the figures treated in the original edition Since tendencies to develop ideological and idiosyncratic responses to extrinsic events have grown stronger over time it is more important than ever for scholars and students alike to recover a moral imagination the force that gave rise to the great literary works of the nineteenth century To describe that force is Harold Kaplan s goal in *Democratic Humanism and American Literature* **Indian Journal of American Studies** ,1979 *An Uneasy Solitude* Maurice Gonnaud,2014-07-14 This subtle intellectual biography juxtaposes Ralph Waldo Emerson s revolutionary spiritual thinking with his elitist ideas of race and property a contrast so sharp as to make his personality seem almost incoherent Writing in the great modern tradition of French anglicists Maurice Gonnaud compares Emerson s taste for solitude and the lyric ardor it awakened in him to his efforts to confront the social pressures of his times Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Indian Journal of Applied Linguistics ,1976 *ESQ* ,1975 Framed Visions Gerd Gemünden,1998 Emphasizes the fluid relationship between literature cinema and social life *The Athenaeum* ,1885
