Collaborating to Support All Learners in Mathematics and Science Faye Brownlie, Carole Fullerton, Leyton Schnellert, 2011-06-23 In this second volume of *It's All About Thinking* the authors focus their expertise on the disciplines of mathematics and science translating principles into practices that help other educators with their students How can we help students develop the thinking skills they need to become successful learners How does this relate to deep learning of important concepts in mathematics and science How can we engage and support diverse learners in inclusive classrooms where they develop understanding and thinking skills In this book Faye Leyton and Carole explore these questions and offer classroom examples to help busy teachers develop communities where all students learn This book is written by three experienced educators who offer a welcoming and can do approach to the big ideas in math and science education today In this book you will find insightful ways to teach diverse learners Information circles open ended strategies inquiry manipulatives and models lessons crafted using curriculum design frameworks udl and backwards design assessment for as and of learning fully fleshed out lessons and lesson sequences inductive teaching to help students develop deep learning and thinking skills in Math and Science assessment tools and student samples for concepts drawn from learning outcomes in Math and Science curricula excellent examples of theory and practice made accessible real school examples of collaboration teachers working together to create better learning opportunities for their students

Whole School Projects Kieran Egan, Bob Dunton, Gillian Judson, 2014 In this new and practical contribution to the importance of imagination in learning Kieran Egan and his colleagues demonstrate how individual contributions to a coherent large scale project can produce enormous results of great educational value Helping all participants to feel pride for more than just their own individual work such Whole School Projects WSPs encourage appreciation for the abilities of others and enable everyone involved to recognize that all kinds of learning styles intelligences and ability levels play an important part in constructing the whole Most important WSPs invigorate student engagement and build community within a school The authors describes a program for engaging a whole school in a particular project over a three year period and outline the educational principles and benefits Providing examples of schools successfully using WSPs they examine the detailed practices needed to get such a project up and running in a typical school While the Whole School Project is distinct from the regular curriculum it can help achieve many of the year's curriculum objectives in mathematics literacy science and technology social studies art and history Finally teachers can choose to incorporate their curriculum aims into the project study even when those aims include meeting externally mandated achievement standards In this highly original book iconic curriculum theorist and change agent Kieran Egan sets out a challenging but coherent alternative to the ways schools usually function For just a few hours every week all students undertake a Whole School Project together Egan's inspiring yet practical strategy will enable you to engage your students ignite your colleagues and deepen learning throughout the school It's a game changer for progressives

and traditionalists alike Andy Hargreaves Thomas More Brennan Chair in Education Lynch School of Education Boston College I have used Egan s imaginative tools extensively in the classroom and facilitated learners from kindergarten to grade 8 with their Learning in Depth projects experiencing how engaged and deep the learning becomes Whole School Projects will continue to expand these proven exemplary practices or if this is all new to you it will be a wonderful place to begin Shannon Shields vice principal SBTC Salt Spring Island Middle School Kieran Egan is one of the thinkers on 21st century learning who is not content to simply wave his hands in the air and invoke the magic of technology He offers concrete proposals for student centered learning that are workable in our current school environment Mark Classen principal Harrison Hot Springs Elementary School
