 on Economic Education, 2006-12 Grade level 8 9 10 11 12 i s t Global Science Literacy V. J. Mayer, 2002-02-28 The
 authors propose the science curriculum concept of Global Science Literacy justifying its use internationally with reference to
 the nature of science the probable direction of science in the new millennium the capability for GSL to develop inter cultural
 understanding and its relevance to non Western cultures and traditions GSL curricula are organized conceptually rather than
 by science discipline include objectives from the social studies construct of global education and represent the broad
 spectrum of science methodologies not just those of the physical sciences typical of current curricula The book is
 recommended reading for all who are interested in the future of science curricula and interested in considering a non
 traditional viewpoint Curriculum developers and researchers future teachers and graduate students in general curriculum
 courses science education courses and social studies education courses and their professors should be particularly interested
 The book is divided into three sections In the first section the concept of Global Science Literacy and the justification of its
 use for science curricula internationally are developed The second section describes learning environments that are
 especially appropriate for GSL curricula The third and last section provides ideas and approaches for developing aspects of
 GSL curricula **Earth's Waters: Teacher's ed** ,2005 Class 7 Social Science : CBSE SAMPLE PAPERS for school
